

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name:

Legal entity identifier:

UBS (Irl) Fund Solutions II ICAV – MSCI Emerging Markets Low Carbon Target Index Fund

549300ERQ5HOEHR4ZS11

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments].*

Yes

No

It will make a minimum of **sustainable investments with an environmental objective:** ____ %

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 10% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It will make a minimum of **sustainable investments with a social objective:** _____ %

It promotes E/S characteristics, but **will not make any sustainable investments**

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

What environmental and/or social characteristics are promoted by this financial product? *[indicate the environmental and/or social characteristics promoted by the financial product and whether a reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the financial product].*

This financial product is passively managed and tracks an index (“Index/Reference Benchmark”). The following characteristics are promoted by the financial product:

- tracks/tracking of a benchmark with a sustainability profile (ESG Score) that is higher than the parent benchmark’s sustainability profile
- a Carbon Intensity (1, 2) emissions indicator lower than parent benchmark (MSCI)

The Reference Benchmark designated for the purpose of attaining the characteristic promoted by the financial product is the MSCI Emerging Markets Low Carbon Target Total Return Net.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The above ESG characteristics are measured using the following indicators respectively:

- The FUND_ESG_QUALITY_SCORE
- Weighted average carbon intensity (Scope 1+2) MSCI

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?*** *[include, for financial products that make sustainable investments, a description of the objectives and how the sustainable investments contribute to the sustainable investment objective. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributes].*

The financial product intends to make sustainable investment by investing at least 90% of its total net assets in securities that are constituents of the Index. MSCI Emerging Markets Low Carbon Target Indices aim to represent the performance of an investment strategy that by re-weighting free-float market cap weights based upon certain ESG metrics seeks to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while excluding companies based on various ESG and climate change criteria.

MSCI Climate Change Metrics provides climate data & tools to support investors integrating climate risk & opportunities into their investment strategy and processes. It supports investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, align with temperature pathways and factoring climate change research into their risk management processes, in particular through climate scenario analysis for both transition and physical risks.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

	<ul style="list-style-type: none"> ● How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective? <i>[include a description for the financial product that partially intends to make sustainable investments]</i>
	<p>This financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.</p>
	<p><i>How have the indicators for adverse impacts on sustainability factors been taken into account? [explain how the indicators for adverse impacts in Table 1 of Annex I and any relevant indicators in Tables 2 and 3 of Annex I are taken into account].</i></p>
	<p>Indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family</p> <p>The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.</p> <p>MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.</p> <p>The financial product excludes investments in companies involved directly in the use, development, manufacturing, stockpiling, transfer or trade of cluster munitions and/or anti-personnel landmines, nuclear weapons, biological weapons or chemical weapons.</p>
	<p><i>How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? 	<p>The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.</p> <p>https://www.msci.com/documents/1296102/14524248/MSCI+ESG+Research+Controversies+Executive+Summary+Methodology+-+July+2020.pdf/b0a2bb88-2360-1728-b70e-2f0a889b6bd6</p>

[Include statement for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

	<p>Does this financial product consider principal adverse impacts on sustainability factors?</p>
<input checked="" type="checkbox"/>	<p>Yes <i>[if the financial product considers principal adverse impacts on sustainability factors, include a clear and reasoned explanation of how it considers principal adverse impacts on sustainability factors. Indicate where, in the information to be disclosed pursuant to Article 11(2) of Regulation (EU) 2019/2088, the information on principal adverse impacts on sustainability factors is available]</i></p>
	<p>Yes, this financial product is passively managed and tracks an Index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.</p> <p>The indices incorporate the MSCI ESG Controversies score, screening out on a timely basis any issuers in significant breach of ESG norms.</p> <p>MSCI ESG Controversies are designed to provide timely and consistent assessments of ESG controversies involving issuers. Any issuer with a “Red” MSCI ESG Controversies Score (score less than 1) is excluded from Sustainability indices. The Controversy Score measures an issuer’s involvement in major ESG controversies and how well the issuer adheres to international norms and principles.</p> <p>The MSCI ESG Controversies tool monitors company involvement in notable ESG controversies related to the company’s operations and/or products, possible breaches of international norms and principles such as the UN Global Compact, and performance with respect to these norms and principles.</p> <p>The financial product also exclude investments in companies involved directly in controversial weapons (the use, development, manufacturing, stockpiling, transfer or trade of cluster bombs, landmines, depleted uranium weapons, chemical and bi-ological weapons, blinding laser weapons, non-detectable fragments and incen-diary weapons (white phosphorus)), tobacco, thermal coal mining and oil & gas.</p>
<input type="checkbox"/>	<p>No</p>
	<p>What investment strategy does this financial product follow? <i>[provide a description of the investment strategy and indicate how the strategy is implemented in the investment process on a continuous basis.]</i></p> <p>This financial product seeks to promote the characteristic(s) described in this annex through Index selection and passive asset management</p> <p>This financial product is passively managed and seeks to track the performance and the ESG profile of the Index. Sustainability characteristics and risks are considered as part of</p>

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

	<p>the Index selection process. The Index which is stated by the index provider to be screened against environmental, social or governance criteria and any methodology used by the index provider to assess sustainability characteristics and risks of the constituents of the index can be found on the website of the index provider.</p>
	<ul style="list-style-type: none"> • What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?
	<p>The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:</p> <p>Characteristic 1):</p> <p>A sustainability profile (MSCI ESG Score) that is higher than the parent benchmark's sustainability profile</p> <p>Characteristic 2):</p> <p>A Carbon Intensity (1 and 2) emissions indicator that is lower than parent benchmark (MSCI)</p> <p>The calculations do not take account of cash, derivatives and unrated investment instruments.</p> <p>The binding element(s) are calculated at quarter end using the average of all of business days' values in the quarter.</p>
	<ul style="list-style-type: none"> • What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy? <i>[include an indication of the rate, where there is a commitment to reduce the scope of investments by a minimum rate].</i>
	<p>This financial product invests at least 90% of its total net assets in securities that are constituents of the Index and the Index provider applies ESG Ratings on all of the Index constituents. It is, therefore, expected that this financial product's resulting ESG rating will be higher than the ESG rating of a financial product tracking a standard index.</p>
	<ul style="list-style-type: none"> • What is the policy to assess good governance practices of the investee companies?
	<p>Assessment of good governance practices of the investee companies is performed by the index provider.</p> <p>MSCI analysis begins with an evaluation of each company's Corporate Governance, taking into consideration the company's ownership and control structures, the composition and effectiveness of its board, the effectiveness of its incentive practices and the integrity of its accounting. Corporate Behavior is also monitored, including any controversies that might have a significant negative impact on the company's value.</p>
	<p>What is the asset allocation planned for this financial product? <i>[include a narrative explanation of the investments of the financial product, including the minimum proportion of the investments of the financial product used to meet the environmental or social characteristics promoted by the financial product in accordance with the binding elements of the investment strategy, including the minimum proportion of sustainable investments of the financial product where that financial products commits to making sustainable investments, and the purpose of the</i></p>

	<i>remaining proportion of the investments, including a description of any minimum environmental or social safeguards].</i>
	The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 90%. The minimum proportion of sustainable investments of the financial product is 10%.

Asset allocation describes the share of investments in specific assets.

[Include only relevant boxes, remove irrelevant ones for the financial product]

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

[include the note below where the financial product commits to making sustainable investments].

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.

-The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

[include note only for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

	<ul style="list-style-type: none"> • How does the use of derivatives attain the environmental or social characteristics promoted by the financial product? <i>[for financial products that use derivatives as defined in Article 2(1), point (29), of Regulation (EU) No 600/2014 to attain the environmental or social characteristics they promote, describe how the use of those derivatives meets those characteristics].</i>
	<p>The financial product tracks an ESG index and may replicate the performance of the index by the use of derivatives. Derivatives will only be used in case that a) the investment objective cannot be achieved by investments index components, in particular in order to reflect the performance of a currency hedge where a sub-fund replicates a currency-hedged index, or b) to generate efficiencies in gaining exposure to the constituents of the index, in particular where there are legal or practical obstacles to gaining direct access to a market to which the index refers.</p> <p>The financial product may namely enter into a range of index related swaps (excluding funded swaps) and derivative instruments (futures, forwards, currency swaps, p-notes, options, warrants and foreign exchange contracts) in order to replicate the index.</p>

	<p>To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy? <i>[include a section for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 and include the graphical representation referred to in Article 15(1), point (a), of this Regulation, the description referred to in Article 15(1), point (b), of this Regulation, a clear explanation as referred to in Article 15(1), point (c), of this Regulation, a narrative explanation as referred to in Article 15(1), point (d), of this Regulation and the information referred to in Article 15(3) of this Regulation].</i></p>
	<p>The minimum extent that investments underlying this financial product are sustainable investments with an environmental objective aligned with the EU Taxonomy is 0%.</p>

[include note only for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

[include note for financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities].

 are environmentally sustainable investments **that do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

	<ul style="list-style-type: none"> • What is the minimum share of investments in transitional and enabling activities? <i>[include section for the financial products referred to in Article 65, first paragraph, of Regulation (EU) 2020/852].</i>
	<p>Not applicable</p>
	<p>What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy? <i>[include section only for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 where the financial product invests in economic activities that are not environmentally sustainable economic activities and explain why the financial product invests in sustainable investments with an environmental objective in economic activities that are not Taxonomy-aligned].</i></p>
	<p>The financial product targets a minimum proportion of sustainable investment as stated in the asset allocation of this annex.</p>
	<p>What is the minimum share of socially sustainable investments? <i>[include section only where the financial product includes sustainable investments with a social objective].</i></p>

	<p>The financial product targets a minimum proportion of sustainable investment, these investments have both environmental and social objectives however there are no specific minimum proportions for each of these categories.</p>
	<p>What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?</p>
	<p>Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management relative to the benchmark weighting. This category may also include securities for which relevant data is not available.</p>
	<p>Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes? <i>[include section where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product and indicate where the methodology used for the calculation of the designated index can be found].</i></p>
<p><i>[include note for financial products where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product].</i></p> <p>Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective.</p>	<p>The Reference Benchmark designated for the purpose of attaining the sustainable objective of the financial product is the MSCI Emerging Markets Low Carbon Target Total Return Net.</p> <ul style="list-style-type: none"> • How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?
	<p>The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote. The Index rebalances on a semi-annual basis. More details on the index methodology applied by the index provider can be found below.</p>
	<ul style="list-style-type: none"> • How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?
	<p>The alignment of the investment strategy with the methodology of the index is ensured on a continuous basis as the index provider rebalances the index on a regular basis and the Investment Manager will track the Index in line with the limits set out in the investment policy of Fund.</p> <p>The financial product has initially selected the reference benchmark for its relevance to its investment strategy and the attainment of the characteristics it seeks to promote.</p> <p>The investment strategy of the fund is to track the benchmark’s return and its characteristics, including ESG characteristics, as closely as reasonably possible.</p> <p>The investment strategy is to fully replicate the index and to minimize the tracking error. The investment manager reviews the index methodology when the product is set up and the Index provider may be contacted if the Index methodology is no longer in line with the investment strategy of the financial product.</p>

	<ul style="list-style-type: none"> • How does the designated index differ from a relevant broad market index?
	<p>The Index is a sub-set of the MSCI Emerging Markets Index (the “Parent Index”), being an equity index calculated, maintained, and published by international index supplier MSCI® and denominated in USD. The Index includes large and mid-cap stocks across emerging market countries.</p>
	<ul style="list-style-type: none"> • Where can the methodology used for the calculation of the designated index be found?
	<p>The methodology of the construction of the Index can be found in the fund supplement.</p> <p>https://www.msci.com/index-methodology</p> <p>https://www.msci.com/equity-fact-sheet-search</p> <p>https://www.msci.com/our-solutions/indexes/low-carbon-indexes</p>
	<p>Where can I find more product specific information online?</p> <p>More product-specific information can be found on the website: <i>[include a hyperlink to the website referred to in Article 23 of this Regulation].</i></p>
	<p>www.ubs.com/funds</p>
