

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **JBS** (Lux) Key Selection SICAV - European Equity Sustainable Leaders (EUR)

Legal entity identifier: 549300HZC1RPILEBHN95

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 69.72% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the financial product:

- A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles

● **How did the sustainability indicators perform?**

- From 13th of December 2022 onwards, the UBS ESG consensus score of the financial product was lower than that of its benchmark.
 - UBS consensus score of the financial product: 7.47
 - UBS consensus score of the benchmark: 7.58
- The UBS ESG Consensus score was between 7 and 10. While lower than the benchmark, the score of 7.47 is within the threshold thereby indicating a strong sustainability profile.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

— — **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
Nestle SA	Food & soft drinks	7.99	Switzerland
Novo Nordisk A/S	Pharmaceuticals, cosm & med prod	6.27	Denmark
AstraZeneca PLC	Pharmaceuticals, cosm & med prod	5.84	Great Britain
LVMH Moet Hennessy Louis Vuitton SE	Textiles, garm & leather goods	5.20	France
ASML Holding NV	Electronics & semiconductors	4.57	Netherlands
Roche Holding AG	Pharmaceuticals, cosm & med prod	3.43	Switzerland

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 69.72%.

● *What was the asset allocation?*

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 30.09.2023.

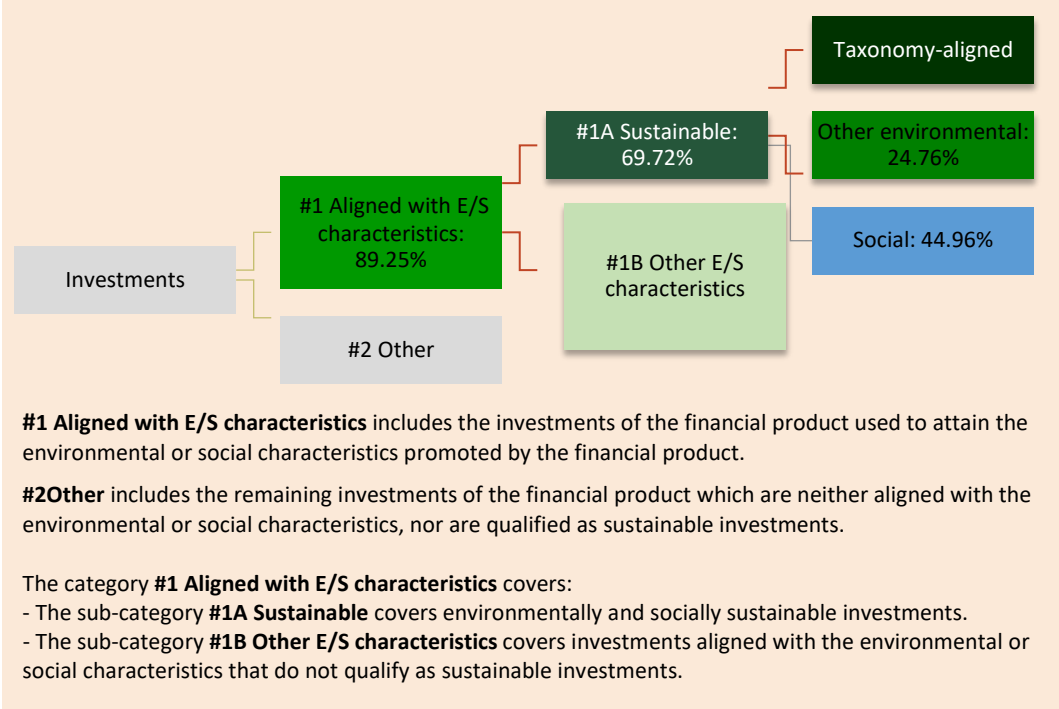

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 30.09.2023

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product had 0% Taxonomy Aligned Investments.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

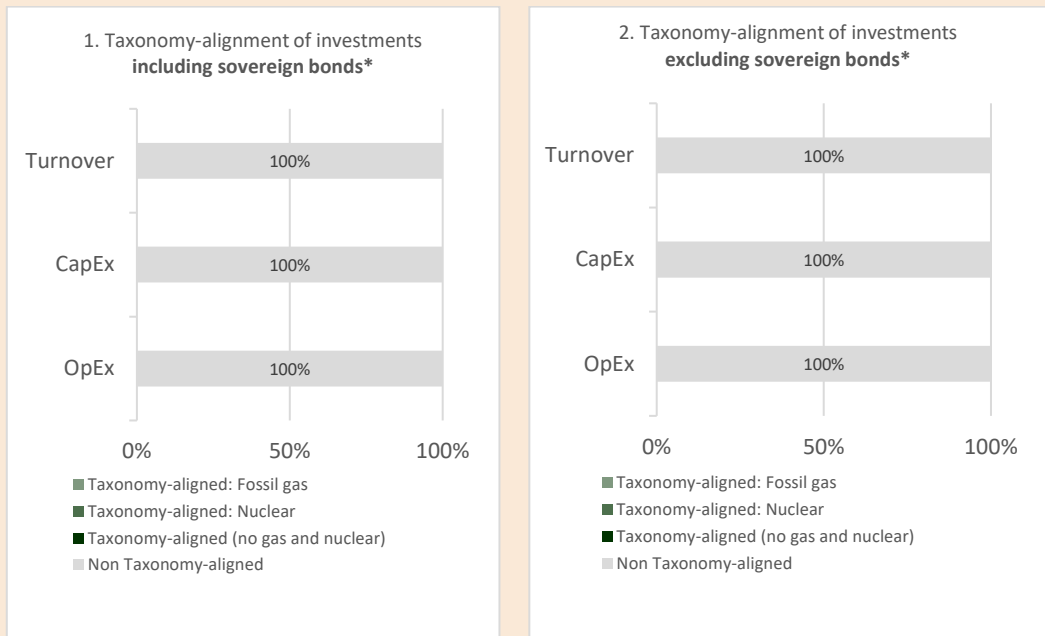

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
