What is this product?

Type

Redwood Value Strategies Fund (the "Fund") is a sub-fund of Diamond Capital Funds plc (the "Company") which is an open-ended umbrella investment company with variable capital and segregated liability between sub-funds, registered in Ireland and established as a UCITS.

Objectives

Investment objective The Fund's investment objective is to achieve appreciation of its assets over a medium to long-term investment horizon.

Investment policies The Fund seeks to achieve its investment objective by investing predominantly in a diversified portfolio of equity securities, issued by companies listed on Recognised Exchanges worldwide. The Fund will seek to invest in companies which have significant asset backing. The majority of such investment is expected to be in closed-ended funds constituted as investment companies, while other examples of companies with significant asset-backing would include REITs, investment trusts and holding companies.

The Fund has no geographic limits on where its investments may be located, but will, however, primarily invest in securities which are listed in the UK and continental Europe.

The Fund may hold up to 100% of the Net Asset Value in cash (including in currencies other than the Base Currency) or ancillary liquid assets (comprising short term money market instruments which may or may not be listed on a Recognised Exchange, money market funds, bank deposits and cash equivalents).

The Fund may use over the counter and/or exchange traded derivatives, such as foreign exchange forwards, CFDs, total return swaps and equity swaps. Such derivative instruments may be used for (i) hedging purposes, (ii) efficient portfolio management, and/or (iii) investment purposes, subject to the conditions and within the limits from time to time laid down by the Central Bank. The use of these instruments may result in the fund being leveraged i.e. the total exposure of the Fund as a result of all positions held by it may exceed its net asset value.

Portfolio transaction costs may have an impact on the performance of the Fund.

You can find further details in the Company's Prospectus and the Fund's Supplement.

Benchmark The Fund will be actively managed in that it will not be managed with reference to, or constrained by, a benchmark.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?
