

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Diamond Futurity Fund

a sub-fund of **Diamond Capital Funds plc**

Class B USD Participating Share (the "Share Class") (IE00BGKXXT08)

Diamond Futurity Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

This product is managed by Diamond Capital Management (Singapore) Pte Ltd (the "Investment Manager"), which is authorised in Singapore and supervised by the Monetary Authority of Singapore ("MAS"). For more information on this product, please refer to www.diamondcapital.net or call +65 65 119 500

Waystone Management Company (IE) Limited (the "Manager") is authorised in Ireland and regulated by the Central Bank of Ireland.

Accurate as of: 1 December 2023

What is this product?

Type

Diamond Futurity Fund (the "Fund") is a sub-fund of Diamond Capital Funds plc (the "Company") which is an open-ended umbrella investment company with variable capital and segregated liability between sub-funds, registered in Ireland and established as a UCITS.

Objectives

Investment objective The Fund's objective is to provide long term capital appreciation. The Fund will invest primarily in a diversified portfolio of equity securities, issued primarily by technology companies.

Investment policies The Investment Manager has discretion in managing the investments of the Fund.

The Fund will invest at least 70% of the Fund's total assets in equity securities, and up to 30% of the total assets will be held in cash, money market deposits or money market funds. At least 60% of the equity securities in the portfolio will be equity securities of technology-related companies. The balance, if any, of the equity securities will be equity securities of companies that are not related to technology, provided that they have a market capitalization of no less than \$10 Billion US Dollars when they are purchased.

When investing in technology-related companies, the Investment Manager will often pay special attention to potential long-term growth and to disruptive technologies.

The Fund may also invest up to 20% of its total assets in collective investment schemes (including open-ended exchange traded funds) in order to generate exposure to investments consistent with the investment policy of the Fund.

The Fund may use derivative instruments for (i) the purposes of hedging and/or (ii) efficient portfolio management. The use of these instruments may result in the Fund being leveraged i.e. the total exposure of the Fund as a result of all positions held by it may exceed its net asset value.

Portfolio transaction costs may have an impact on the performance of the Fund.

You can find further details in the Company's Prospectus and the Fund's Supplement.

Benchmark The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

Redemption and Dealing Shares in the Fund can generally be bought and sold daily (i.e. every Business Day of the Fund). Please refer to the Prospectus for more information.

Distribution Policy Any income arising from the Fund will be re-invested and it is not intended that the Fund will pay dividends.

Launch date The Fund was launched on 05/12/2018. The share class was launched on 20/05/2020.

Fund Currency The base currency of the Fund is USD.

Conversion of units/shares Subject to the Minimum Initial Subscription, Minimum Holding and Minimum Transaction Size requirements of the relevant Classes, Shareholders may request conversion of some or all of their Shares in one fund of the Company or Class to Shares in another fund of the Company or Class or another Class in the Fund in accordance with the procedures specified in the Prospectus under the heading "Conversion of Shares".

Asset Segregation The Fund is a sub-fund of the Company, an umbrella fund with segregated liability between sub-funds. You can find out more information about the umbrella fund in the Prospectus. The Prospectus and periodic reports are prepared in the name of Company.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-high level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Diamond Capital Management (Singapore) Pte Ltd (the "Investment Manager"), is not entitled to terminate the product unilaterally.

Practical information

Depositary The depositary of the Fund is Northern Trust Fiduciary Services (Ireland) Limited.

Further information Should you require further information on this Fund, the Share Class or other share classes of the Fund, you may obtain the current Prospectus from the administrator, Northern Trust International Fund Administration Services (Ireland) Limited, and the most recent annual and any subsequent half-yearly reports and accounts from the registered office of the Company: George's Court, 54-62 Townsend Street, Dublin 2, Ireland. The documents referred to shall be provided free of charge on request. The Net Asset Value of the Share Class is calculated in USD and will be made available on the internet at www.bloomberg.com and www.diamondcapital.net and from the Investment Manager or Administrator during normal business hours.

Representative share classes information Share Class B Accumulating USD (IE00BGKXXT08) is representative for Share Class B Capitalisation ILS (IE00BMFPHD54), B Capitalisation EUR (IE00BGKXXV20).

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 29 January 2021 and 31 October 2023.

Moderate: this type of scenario occurred for an investment between 28 February 2014 and 28 February 2019.

Favourable: this type of scenario occurred for an investment between 29 January 2016 and 29 January 2021.

Recommended holding period		5 years	
Example Investment		10,000 USD	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	1,354 USD -86.5%	1,267 USD -33.8%
Unfavourable	What you might get back after costs Average return each year	5,772 USD -42.3%	7,075 USD -6.7%
Moderate	What you might get back after costs Average return each year	11,399 USD 14.0%	18,249 USD 12.8%
Favourable	What you might get back after costs Average return each year	17,271 USD 72.7%	31,268 USD 25.6%

What happens if the Fund is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the Fund to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.diamondcapital.net.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	230 USD	2,244 USD
Annual cost impact*	2.3%	2.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.4% before costs and 12.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 USD
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	2.19% of the value of your investment per year. This is an estimate based on actual costs over the last year.	219 USD
Transaction costs	0.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	11 USD
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.00% is the cost estimate based on the average costs paid over the years since inception. Please note, that per the Fund's Supplement, the Performance Fee is 9.80% of any increase in the value of the shares above the previous highest value, calculated annually. Please see the Fund Supplement for more details.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Shares in the Fund can generally be bought and sold daily (i.e. every Business Day of the Fund). Please refer to the Prospectus for more information.

How can I complain?

You can send your complaint to the Investment Manager as outlined at www.diamondcapital.sg or under the following postal address Diamond Capital Management (Singapore) Pte. Ltd., 3 Church Street, #22-00 Samsung Hub Singapore 049483 or by e-mail to yair@diamondcapital.sg.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

Cost, performance and risk The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules.

Performance scenarios You can find previous performance scenarios updated on a monthly basis at our website www.diamondcapital.net.
