

# Key Information Document

FOORD GLOBAL EQUITY FUND (LUXEMBOURG) (THE "SUB-FUND"), A SUB-FUND OF FOORD SICAV (THE "FUND")

Class: A - ISIN: LU0914416671

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Name: Foord SICAV - Foord Global Equity Fund (Luxembourg) - A  
Product Manufacturer: Lemanik Asset Management S.A.  
ISIN: LU0914416671  
Website: <https://www.lemanikgroup.com/>

Call +352 26 39 60 for more information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Lemanik Asset Management S.A. in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

Lemanik Asset Management S.A. is authorised in Luxembourg and regulated by the CSSF.

This Key Information Document is accurate as at 1<sup>st</sup> June 2024.

## What is this product?

### TYPE

The product is a sub-fund of Foord SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

### OBJECTIVES

The investment objective of the Sub-Fund is to achieve an optimum risk adjusted total return by investing primarily in a diversified portfolio of global equities (including equity-related instruments such as warrants). This includes investments in China A-Shares through the Shanghai Hong Kong Stock Connect. Subject to the restrictions and requirements set out in Appendix 1 and paragraph 4 below, for efficiency and economies of scale, these investments may be made directly or indirectly by investing in UCITS or Other UCIs.

The Sub-Fund aims to achieve a higher total rate of return than the MSCI All Country World Net Total Return Index (the "Benchmark") over a full market cycle. The Sub-Fund is actively managed and is not constrained by the Benchmark in its portfolio positioning. The Investment Manager actively decides on the portfolio's regional allocation, sector views and overall level of exposure to the market to take advantage of investment opportunities. This may include investing in companies or sectors outside the Benchmark. Accordingly, the portfolio composition may substantially deviate from the benchmark.

The benchmark is used for performance fee calculation.

The Sub-Fund may also invest in money market Instruments and term deposits to minimise volatility, enhance the yield and capital growth of the Sub-Fund while reducing downside risks and waiting for opportunity to take advantage of market dislocation. The Sub-Fund does not have any requirements for capitalisation, geographical distribution or emphasis on industry or sector, but will invest wherever the best opportunities lie across sectors and regions.

The investor may subscribe, convert and redeem units on each bank business day in Luxembourg.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

Income of this unit class is reinvested (accumulated).

### INTENDED RETAIL INVESTOR

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

The Depositary is CACEIS Investor Services Bank S.A. until 31 May 2024. Effective 1 June 2024, the Depositary will be CACEIS Bank, Luxembourg Branch.

The Investment Manager is Foord Asset Management (Guernsey) Limited and the Sub-Investment Manager is Foord Asset Management (Singapore) Pte. Limited.

Further information about the Fund (including the current Prospectus and most recent annual report) is available in English, and information about the Sub-Fund and other share classes (including the latest prices of shares and translated versions of this document), are available free of charge on [www.foord.com](http://www.foord.com) or by making a written request to Lemanik Asset Management S.A., 106, route d'Arlon, L-8210 Mamer, Luxembourg or by emailing [fund.reporting@lemanik.lu](mailto:fund.reporting@lemanik.lu).

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	5 years USD 10 000	
	If you exit after 1 year	If you exit after 5 years

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 5 300	USD 2 200	
	Average return each year	-47.0%	-26.1%	
Unfavourable scenario	What you might get back after costs	USD 7 380	USD 8 040	This type of scenario occurred for an investment in the product between May 2021 and September 2023.
	Average return each year	-26.2%	-4.3%	
Moderate scenario	What you might get back after costs	USD 10 160	USD 12 340	This type of scenario occurred for an investment in the product between August 2018 and August 2023.
	Average return each year	1.6%	4.3%	
Favourable scenario	What you might get back after costs	USD 16 040	USD 19 630	This type of scenario occurred for an investment in the product between February 2016 and February 2021.
	Average return each year	60.4%	14.4%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 155	USD 945
Annual cost impact (*)	1.6%	1.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.9% before costs and 4.3% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	USD 0
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.46% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 146
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 9
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

The cut-off time is 4 p.m. (Luxembourg time) on each Valuation Day for subscription, redemption and conversions. Thereafter, shares will be issued at a price based on the Net asset Value per share determined as at the relevant Valuation Day.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.05% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 5
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 9
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

The cut-off time is 4 p.m. (Luxembourg time) on each Valuation Day for subscription, redemption and conversions. Thereafter, shares will be issued at a price based on the Net asset Value per share determined as at the relevant Valuation Day.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

This PRIIP is authorised in Luxembourg.

Lemanik Asset Management S.A. is authorised in Luxembourg and regulated by the CSSF.

This Key Information Document is accurate as at 1<sup>st</sup> June 2024.

## What is this product?

### TYPE

The product is a sub-fund of Foord SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

### OBJECTIVES

The investment objective of the Sub-Fund is to achieve an optimum risk adjusted total return by investing primarily in a diversified portfolio of global equities (including equity-related instruments such as warrants). This includes investments in China A-Shares through the Shanghai Hong Kong Stock Connect. Subject to the restrictions and requirements set out in Appendix 1 and paragraph 4 below, for efficiency and economies of scale, these investments may be made directly or indirectly by investing in UCITS or Other UCIs.

The Sub-Fund aims to achieve a higher total rate of return than the MSCI All Country World Net Total Return Index (the "Benchmark") over a full market cycle. The Sub-Fund is actively managed and is not constrained by the Benchmark in its portfolio positioning. The Investment Manager actively decides on the portfolio's regional allocation, sector views and overall level of exposure to the market to take advantage of investment opportunities. This may include investing in companies or sectors outside the Benchmark. Accordingly, the portfolio composition may substantially deviate from the benchmark.

The benchmark is used for performance fee calculation.

The Sub-Fund may also invest in money market Instruments and term deposits to minimise volatility, enhance the yield and capital growth of the Sub-Fund while reducing downside risks and waiting for opportunity to take advantage of market dislocation. The Sub-Fund does not have any requirements for capitalisation, geographical distribution or emphasis on industry or sector, but will invest wherever the best opportunities lie across sectors and regions.

The investor may subscribe, convert and redeem units on each bank business day in Luxembourg.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

Income of this unit class is reinvested (accumulated).

### INTENDED RETAIL INVESTOR

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

The Depositary is CACEIS Investor Services Bank S.A. until 31 May 2024. Effective 1 June 2024, the Depositary will be CACEIS Bank, Luxembourg Branch.

The Investment Manager is Foord Asset Management (Guernsey) Limited and the Sub-Investment Manager is Foord Asset Management (Singapore) Pte. Limited.

Further information about the Fund (including the current Prospectus and most recent annual report) is available in English, and information about the Sub-Fund and other share classes (including the latest prices of shares and translated versions of this document), are available free of charge on [www.foord.com](http://www.foord.com) or by making a written request to Lemanik Asset Management S.A., 106, route d'Arlon, L-8210 Mamer, Luxembourg or by emailing [fund.reporting@lemanik.lu](mailto:fund.reporting@lemanik.lu).

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	5 years USD 10 000	
	If you exit after 1 year	If you exit after 5 years

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 5 300	USD 2 200	
	Average return each year	-47.0%	-26.1%	
Unfavourable scenario	What you might get back after costs	USD 7 410	USD 8 100	This type of scenario occurred for an investment in the product between May 2021 and September 2023.
	Average return each year	-25.9%	-4.1%	
Moderate scenario	What you might get back after costs	USD 10 190	USD 12 550	This type of scenario occurred for an investment in the product between August 2018 and August 2023.
	Average return each year	1.9%	4.6%	
Favourable scenario	What you might get back after costs	USD 16 090	USD 19 920	This type of scenario occurred for an investment in the product between February 2016 and February 2021.
	Average return each year	60.9%	14.8%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 118	USD 728
Annual cost impact (*)	1.2%	1.2%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.8% before costs and 4.6% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	USD 0
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.09% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 109
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 9
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

## How long should I hold it and can I take my money out early?

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	5 years USD 10 000	
	If you exit after 1 year	If you exit after 5 years

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	USD 5 300 -47.0%	USD 2 200 -26.1%	
Unfavourable scenario	What you might get back after costs Average return each year	USD 7 440 -25.6%	USD 8 190 -3.9%	This type of scenario occurred for an investment in the product between May 2021 and September 2023.
Moderate scenario	What you might get back after costs Average return each year	USD 10 250 2.5%	USD 12 860 5.2%	This type of scenario occurred for an investment in the product between August 2018 and August 2023.
Favourable scenario	What you might get back after costs Average return each year	USD 16 180 61.8%	USD 20 380 15.3%	This type of scenario occurred for an investment in the product between February 2016 and February 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 71	USD 439
Annual cost impact (*)	0.7%	0.7%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.9% before costs and 5.2% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	USD 0
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.62% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 62
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 9
Incidental costs taken under specific conditions		
Performance fees	15% of the money-weighted outperformance by the share class of the Benchmark return. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

The cut-off time is 4 p.m. (Luxembourg time) on each Valuation Day for subscription, redemption and conversions. Thereafter, shares will be issued at a price based on the Net asset Value per share determined as at the relevant Valuation Day.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 154	USD 943
Annual cost impact (*)	1.5%	1.5%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.8% before costs and 4.3% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	USD 0
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.45% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 145
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 9
Incidental costs taken under specific conditions		
Performance fees	15% of the money-weighted outperformance by the share class of the Benchmark return. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

The cut-off time is 4 p.m. (Luxembourg time) on each Valuation Day for subscription, redemption and conversions. Thereafter, shares will be issued at a price based on the Net asset Value per share determined as at the relevant Valuation Day.

## How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

# Key Information Document

FOORD GLOBAL EQUITY FUND (LUXEMBOURG) (THE "SUB-FUND"), A SUB-FUND OF FOORD SICAV (THE "FUND")

Class: R - ISIN: LU2239867901

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Name: Foord SICAV - Foord Global Equity Fund (Luxembourg) - R  
Product Manufacturer: Lemanik Asset Management S.A.  
ISIN: LU2239867901  
Website: <https://www.lemanikgroup.com/>

Call +352 26 39 60 for more information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Lemanik Asset Management S.A. in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

Lemanik Asset Management S.A. is authorised in Luxembourg and regulated by the CSSF.

This Key Information Document is accurate as at 1<sup>st</sup> June 2024.

## What is this product?

### TYPE

The product is a sub-fund of Foord SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

### OBJECTIVES

The investment objective of the Sub-Fund is to achieve an optimum risk adjusted total return by investing primarily in a diversified portfolio of global equities (including equity-related instruments such as warrants). This includes investments in China A-Shares through the Shanghai Hong Kong Stock Connect. Subject to the restrictions and requirements set out in Appendix 1 and paragraph 4 below, for efficiency and economies of scale, these investments may be made directly or indirectly by investing in UCITS or Other UCIs.

The Sub-Fund aims to achieve a higher total rate of return than the MSCI All Country World Net Total Return Index (the "Benchmark") over a full market cycle. The Sub-Fund is actively managed and is not constrained by the Benchmark in its portfolio positioning. The Investment Manager actively decides on the portfolio's regional allocation, sector views and overall level of exposure to the market to take advantage of investment opportunities. This may include investing in companies or sectors outside the Benchmark. Accordingly, the portfolio composition may substantially deviate from the benchmark.

The benchmark is used for performance fee calculation.

The Sub-Fund may also invest in money market Instruments and term deposits to minimise volatility, enhance the yield and capital growth of the Sub-Fund while reducing downside risks and waiting for opportunity to take advantage of market dislocation. The Sub-Fund does not have any requirements for capitalisation, geographical distribution or emphasis on industry or sector, but will invest wherever the best opportunities lie across sectors and regions.

The investor may subscribe, convert and redeem units on each bank business day in Luxembourg.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

Income of this unit class is reinvested (accumulated).

### INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

The Depositary is CACEIS Investor Services Bank S.A. until 31 May 2024. Effective 1 June 2024, the Depositary will be CACEIS Bank, Luxembourg Branch.

The Investment Manager is Foord Asset Management (Guernsey) Limited and the Sub-Investment Manager is Foord Asset Management (Singapore) Pte. Limited.

Further information about the Fund (including the current Prospectus and most recent annual report) is available in english, and information about the Sub-Fund and other share classes (including the latest prices of shares and translated versions of this document), are available free of charge on [www.foord.com](http://www.foord.com) or by making a written request to Lemanik Asset Management S.A., 106, route d'Arlon, L-8210 Mamer, Luxembourg or by emailing [fund.reporting@lemanik.lu](mailto:fund.reporting@lemanik.lu).

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	5 years USD 10 000		
	If you exit after 1 year	If you exit after 5 years	

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 5 300	USD 2 200	
	Average return each year	-47.0%	-26.1%	
Unfavourable scenario	What you might get back after costs	USD 7 410	USD 8 090	This type of scenario occurred for an investment in the product between May 2021 and September 2023.
	Average return each year	-25.9%	-4.2%	
Moderate scenario	What you might get back after costs	USD 10 180	USD 12 510	This type of scenario occurred for an investment in the product between August 2018 and August 2023.
	Average return each year	1.8%	4.6%	
Favourable scenario	What you might get back after costs	USD 16 090	USD 19 780	This type of scenario occurred for an investment in the product between February 2016 and February 2021.
	Average return each year	60.9%	14.6%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 156	USD 964
Annual cost impact (*)	1.6%	1.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.2% before costs and 4.6% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**
