This document was published on 31 January 2025

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type This is a UCITS fund

Objectives

The objective of the Sub-Fund is to maximise total rates of return, meaning capital appreciation plus income of its investments, over the medium term primarily from returns of Credit Derivatives, with prudent levels of risk while maintaining generally moderate levels of volatility. It intends to achieve the investment objective by generating income and capital appreciation through the Income Portfolio (i.e. the Sub-Fund's long exposure) while seeking to reduce the market risk of the Income Portfolio through the Hedge Portfolio (i.e. the Sub-Fund's short exposure). This will be achieved primarily through long or short exposure via Credit Derivatives.

- The investment process used by the Sub-Fund is generally systematic and research driven in nature. The Sub-Fund's investment process combines a systematic approach (i.e. a rules-based core strategy) with an active discretionary overlay.

- The Sub-Fund will invest in the following instruments through the Income and/or Hedge Portfolio: Credit derivatives on credit default swap indices and OTC Total Return Swaps on corporate debt indices.

- The following will be invested in as part of collateral assets: fixed or floating rate investment grade debt securities issued by members of the EU and developed market corporates and collective investment schemes investing in investment grade corporate debt securities.

Term

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

Redemption and Dealing Shares: Shareholders may subscribe/redeem units at the appropriate NAV per share provided an order request is received by the ICAV by the trade cut-off time 4.30pm (London time). Orders will be dealt the following working day. Subscriptions/redemptions must meet the minimum amounts as set out in the supplement of the Sub-Fund.

Distribution Policy: The Sub-Fund can launch both accumulating and distributing share classes. Please refer to www.tabulacap.com and search "dividend calendar" for further information.

Intended Retail Investor

Intended Retail Investor The Fund is intended for well-informed investors aiming to invest over the long term, who are able to make an informed investment decision based on this document and the Prospectus, have a risk appetite consistent with the risk indicator below and understand that there is no capital guarantee protection (100% of capital is at risk).

What are the risks and what could I get in return?

Lower risk

Higher risk

Typically Lower Rewards

Typically Higher Rewards

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Sub-Fund has been rated as a 3 due to the nature of its investments and frequency of price movements which includes the following. This rates the potential losses from future performance at a medium level and poor market conditions could impact the capacity of the Sub-Fund to pay you.

No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.

Details of all relevant risks can be found in the prospectus and supplement, available at www.tabulacap.com.

Performance Scenarios

The figures shown include all the costs of the product itself (the ongoing costs of the representative share class) but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 5 years. The stress scenario shows what you might get back in extreme market circumstances.

Performance Scenarios

Recommended hold period: 5 years

Investment: 10000 SEK

| Scenarios | | If you exit after 1 year | If you exit after the 5-year recommended holding period |
|-----------------------|---|--------------------------|---|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress Scenario | What you might get back after costs | 5671.67 SEK | 5365.72 SEK |
| | Average Return each year | -43.283% | -11.707% |
| Unfavourable Scenario | What you might get back after costs | 7838.65 SEK | 8370.31 SEK |
| | Average Return each year | -21.614% | -3.495% |
| Moderate Scenario | What you might get back after costs | 10429.28 SEK | 11367.89 SEK |
| | Average Return each year | 4.293% | 2.597% |
| Favourable Scenario | What you might get back after costs | 13109.18 SEK | 13574.99 SEK |
| | Average Return each year | 31.092% | 6.304% |

The SRI and performance scenarios computation have been integrated using data of the fund benchmark and, for data points prior to the benchmark launch, the parent index as a proxy.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The assets of the Fund are segregated from those of Waystone Management Company (IE) Limited. In addition, HSBC Continental Europe, Dublin Branch, as the depositary of Tabula ICAV funds (the "Depositary"), is responsible for the safekeeping of the assets of the Fund. To that effect, if Waystone Management Company (IE) Limited defaults, there will be no direct financial impact on the Fund. In addition, the Fund's assets shall be segregated from the Depositary's assets, which limits the risk for the Fund suffering some loss in case of default of the Depositary. As a unitholder in the Fund, there is no compensation or guarantee scheme in place.

What are the costs?

The person selling to you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time. The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

| Investment: 10000 SEK | If you cash in after 1 year | If you cash in at the end of the 5 years |
|------------------------|-----------------------------|--|
| Total costs | 116.03 SEK | 559.66 SEK |
| Annual cost impact (*) | 1.160% | 1.145% |

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your median return per year before cost (the ongoing cost of the representative share class) is projected to be 3.74% and your median return per year after costs is projected to be 2.60%.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. Note that there is no performance fee.

| Impact on return per year | | | |
|---------------------------|-----------------------|-------|---|
| One-off costs | Entry costs | 0.00% | The costs you pay when entering your investment |
| | Exit costs | 0.00% | |
| Other ongoing costs | Portfolio transaction | 0.27% | The cost of buying and selling the underlying investment for the product |
| | Other ongoing costs | 0.84% | Other Ongoing Costs: this is the total expense ratio, i.e. The total of management fees and other administrative or operating costs |
| Incidental costs | Performance fees | | |

Transaction Cost: This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell

Other Ongoing Costs: this is the total expense ratio, i.e. The total of management fees and other administrative or operating costs

..

How long should I hold it and can I take money out early?

The funds are designed to be held over the long term and we recommend you hold this investment for at least 5 years. You can request to take some or all your money out at any time, you can typically require to buy or sell shares in the sub fund on any business day (set out in the fund supplement) If you sell your shares at an earlier stage this will increase the risk of lower investment returns or losses.

How can I complain?

If you wish to make a complaint about the Fund, the Issuer or any person advising or selling the fund, you should write to: Tabula Capital Limited, 55 Strand, London WC2N5LR. You can also email IR@tabcapim.com or via our website <https://www.tabulacap.com/contact/>. Alternatively, you can send your complaint to the Management Company at 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to complianceeurope@waystone.com.
