## What is this product?

### Type

This product is an investment fund.

### Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

### Objectives

EdenTree European Sustainable Equities belongs to the category of Single Manager Funds.

The Fund seeks to provide a long-term appreciation with a diversified and actively managed portfolio of European sustainable equities, without any specific restriction on tracking error by in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in Europe.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the sub-fund's net assets. The minimum sub-fund's investment in equity securities will be of 75% of the sub-fund's net assets.

The sub-fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria. The qualitative analysis assesses the stability and strength of the investment manager, as well as its investment process and philosophy. The quantitative selection process aims to select only funds with proven risk-adjusted performance.

Investments in debt securities will not exceed 15% of its net assets.

The sub-fund may invest up to 20% in bank deposits at sight, including cash held in current accounts with a bank accessible at any time.

**Sustainable Investment Policy** The sub-fund contributes to environmental and social objectives and qualifies as an investment product in accordance with article 9 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector.

The sustainable investment objective of the sub-fund is to be aligned with the Paris Agreement, where world governments committed to curbing global temperature rise to below 2°C above pre-industrial levels. In addition, as part of its social sustainable investment objective, the Sub-Fund invests in companies contributing positively to social solutions. The sub-fund will be composed by issuers exposed to four long-term sustainable themes such as (i) "Education, (ii) "Health & Wellbeing", (iii) "Social Infrastructure" and (iv) "Sustainable Solutions".

In addition, the External Investment Manager's will use its long-term ownership and relationship with management to improve the way businesses manage their interaction with the environment and society.

The sub-fund will comply with ABN AMRO Investment Solutions' exclusion list defined in Book 1 as well as with the External Investment Manager ethical screens. The combination of both exclusions sets remove, on an "absence of harm" basis areas of the market that cause social or environmental damages (e.g. tobacco, alcohol, weapons, gambling). In addition, the External Investment Manager applies its own norms based and economic activities based screening. Investment ideas are screened against various areas of ESG risks and adverse indicators (e.g. business ethics, human rights, environment & climate change).

As part of this screening process, the sub-fund will strive not to be exposed to areas such as car manufacturers, airlines, cement producers, steel manufacturers or oil and gas Exploration & Production, where the External Investment Manager believes they do not meet with the climate change indicators.

Health & Wellbeing theme contributes across the health spectrum including, sport, diet, nutrition, diagnosis, prevention and cure. The Social Infrastructure theme contributes to the socially built environment by supporting investment in community projects, (hospitals, schools, clinics etc.) The Sustainable Solutions theme contributes to both environmental and social objective by supporting investments in renewable energy, water, sustainable agriculture, green buildings and green finance.

The ESG analysis covered 100% of the portfolio. After reviewing the investment universe, at least 20% of companies are excluded based on SRI Criteria.

The derivative instruments are not covered by the ESG analysis.

**Relation to the Reference Portfolio** This Fund is actively managed and is compared to the MSCI Europe TR Net for performance and risk level indicator purposes. However, the reference to this Reference Portfolio does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the Reference Portfolio's components.

The Reference Portfolio does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the sub-fund.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

**What happens if ABN AMRO Funds EdenTree European Sustainable Equities is unable to pay out?**

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

**What are the costs?**

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

**Costs over time**

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>699 EUR</b>	<b>1,094 EUR</b>
<b>Annual cost impact*</b>	<b>6.9%</b>	<b>2.3% each year</b>

(\* ) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.2% before costs and 2.9% after costs.
