For more information on this product, please refer to www.abnamroinvestmentsolutions.com or call +33156219612

Accurate as of: 4 November 2024

What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

Candriam Global ESG Convertibles belongs to the category of Single Manager Funds.

The Fund targets medium-term capital growth.

The Fund invests predominantly in convertible bonds and in synthetic convertible bonds whatever the listing markets.

The Fund may also use other instruments to reach its investment objective such as, for example, money market instruments and debt instruments and derivative instruments for long and short investment (such as forwards, futures, options, warrants and swaps).

Convertible bonds represent a minimum investment of 55% of the net assets of the Fund and a maximum investment of 110% of the net assets of the Fund, this 10% leverage being realized through the use of derivatives.

The Fund also complies with the following investment restrictions:

- A maximum of 25% invested in ordinary debt instruments (bonds and simple EMTN), excluding the share constituted by synthetic convertible bonds, with no rating constraints or specific sensitivity to interest rates;
- A maximum of 10% invested in equities;
- A maximum of 10% invested in French or European UCITS, other UCIs or regulated AIFs.

The Fund may seek to minimize the investment to currency fluctuations by the use of currency hedging and other financial instruments. The Fund may not invest in defaulted assets and/or distressed assets.

Sustainable Investment Policy The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector as set out in Book I.

In that respect, the External Investment Manager has developed an in-house ESG analysis to allocate an ESG score to each issuer. This score is the combination of the Business Activities analysis (exposure to

sustainability trends as Climate Change, Resource & Waste, Healthy living & Well-being, Demographic Shifts and Digitalization & Innovation) and the Stakeholders analysis scores (assess the extent to which the company incorporates the interests of Investors, Human Capital, Suppliers, Clients, Society and Environment).

The ESG universe (eligible companies) consists of best positioned companies per sector based on these scores; these companies should also pass the norms-based analysis (UN Global Compact) and the armament & controversial activities reviews of the external investment manager.

After the ESG segments have been assessed, the External Investment Manager integrates them in his analysis of the business profile, specifically within 3 themes which are Sector Assessment, Business Analysis and Governance.

This in-depth analysis makes it possible to focus securities selection on the best companies from an ESG perspective, to eliminate issuers with the worst ESG profiles from the selection and/or to focus selection on issuers with the greatest exposure to sustainable development themes. The bottom 20% (at least) of issuers are removed from the universe. The extra-financial analysis covers at least 90% of the portfolio.

The derivative instruments are not covered by the ESG analysis.

Relation to the Reference Portfolio This Fund is actively managed and is compared to the Thomson Reuters Global Focus Hedged Convertible Bond for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Intended retail investor

This product is intended for investors who plan to stay invested for at least 3 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Practical information

Custodian Bank State Street Bank International GmbH, Luxembourg Branch.

Further information Further information about the Fund, the prospectus and the latest annual and semi-annual report may be obtained free of charge, in English, from the Management Company, the local agents or online at www.abnamroinvestmentsolutions.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between October 2021 and October 2023.

Moderate: this type of scenario occurred for an investment between June 2014 and June 2017.

Favourable: this type of scenario occurred for an investment between December 2018 and December 2021.

Recommended holding period		3 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	5,950 EUR -40.5%	6,240 EUR -14.5%
Unfavourable	What you might get back after costs Average return each year	7,620 EUR -23.8%	7,520 EUR -9.1%
Moderate	What you might get back after costs Average return each year	9,580 EUR -4.2%	10,110 EUR 0.4%
Favourable	What you might get back after costs Average return each year	12,210 EUR 22.1%	11,910 EUR 6.0%

What happens if ABN AMRO Funds Candriam Global ESG Convertibles is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	738 EUR	1,014 EUR
Annual cost impact*	7.4%	3.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.9% before costs and 0.4% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Exit costs	1.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	100 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.73% of the value of your investment per year. This is an estimate based on actual costs over the last year.	73 EUR
Transaction costs	0.65% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	65 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 3 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Redemptions are possible on every bank business day in Luxembourg; it will take 2 working days for you to be paid. The price for the day, reflecting the actual value of the fund, is set each day at noon, and published on our website www.abnamroinvestmentsolutions.com.

How can I complain?

You can send your complaint to the fund's management company at 119-121 boulevard Haussmann, 75008 Paris, France or by e-mail to aais.contact@fr.abnamro.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

Cost, performance and risk The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown.

Performance scenarios You can find previous performance scenarios updated on a monthly basis at www.abnamroinvestmentsolutions.com.

Past performance You can download the past performance over the last 4 years from our website at www.abnamroinvestmentsolutions.com.
