### What is this product?

#### Type

The Sub-Fund is part of LO Funds (the "Fund"), a public liability company (société anonyme) incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable share capital. The Fund is subject to part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment in transferable securities ("UCITS").

#### Term

The Sub-Fund has no maturity date. The PRIIP manufacturer is entitled to terminate the Sub-Fund unilaterally under the circumstances provided for in the constitutive documents of the Fund. A liquidation of the Fund will cause the automatic termination of the Sub-Fund.

#### Objectives

The Sub-Fund is actively managed. The MSCI ACF Asia ex-Japan TR ND index is used for performance comparison as well as internal risk monitoring purposes, without implying any particular constraints to the Sub-Fund's investments. Securities targeted by the Sub-Fund can be similar to those of the index to an extent that varies overtime but their weighting is expected to materially differ. The performance of the Sub-Fund may deviate materially from that of the index. The Sub-Fund invests mainly in equity securities issued by companies with a clear and specific focus on Asia from Asian issuers or companies having their main activity in Asia excluding Japan. The Sub-Fund can also have an exposure to China by investing in A shares (issued by mainland China-based companies) through the Shanghai-Hong Kong Stock Connect. Investing in Asian countries may expose the Sub-Funds to local currency which may be only partially hedge. This exposure to emerging markets currencies may increase the volatility and the risk of the Sub-Fund. The Investment Manager will use its discretion with regard to the selection of issuers, countries (including emerging markets), sectors, assets classes, size of companies and currencies.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

#### Sustainability

The Fund has been classified as a financial product subject to Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial sector (the "SFDR"). The Fund promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices.

#### Benchmark

A proxy benchmark has been identified for performance comparison: MSCI ACF Asia ex-Japan USD ND (EUR Cross Hdg.).

#### Intended retail investor

The Sub-Fund is intended for eligible investors who have sufficient experience or have obtained professional advice to assess the risk of investing, have a long-term investment horizon and have sufficient resources to be able to bear any losses (which may equal to the total amount invested) that may result from an investment in the Sub-Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- the product performs as shown in the moderate scenario
- EUR 10'000 is invested

| Investment EUR 10'000      | If you cash in after 1 year | If you cash in after 5 years (recommended) |
|----------------------------|-----------------------------|--|
| <b>Total costs</b>         | EUR 323                     | EUR 1'686                                  |
| <b>Annual cost impact*</b> | 3.23%                       | 3.23%                                      |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.43% before costs and 2.21% after costs. Part of the costs can be paid to the distributor who distributes the product for the services they provide. They will inform you of the amount.

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and what the different cost categories mean.

### COMPOSITION OF COSTS
