What is this product?

Type

The Sub-Fund is part of LO Funds (the "Fund"), a public liability company (société anonyme) incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable share capital. The Fund is subject to part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment in transferable securities ("UCITS").

Term

The Sub-Fund has no maturity date. The PRIIP manufacturer is entitled to terminate the Sub-Fund unilaterally under the circumstances provided for in the constitutive documents of the Fund. A liquidation of the Fund will cause the automatic termination of the Sub-Fund.

Objectives

The Sub-Fund is actively managed. The MSCI Europe TR ND index is used for performance comparison as well as internal risk monitoring purposes, without implying any particular constraints to the Sub-Fund's investments. Securities targeted by the Sub-Fund can be similar to those of the index to an extent that varies overtime but their weighting is expected to materially differ. The performance of the Sub-Fund may deviate materially from that of the index. The Sub-Fund aims to generate capital growth over the long term with on average a higher performance than MSCI Europe. It invests mainly in stocks issued by European companies of any size. In selecting individual equity securities, the Investment Manager is guided by its own financial analysis on companies. The Sub-Fund permanently invests a minimum of 75% of its assets in European Economic Area equities, and is therefore PEA (Plan d'Épargne en Actions) eligible in France. The Sub-Fund is a product which promotes environmental or social characteristics or a combination of those characteristics for the purposes of article 8 of the Sustainable Finance Disclosure Regulation. The Investment Manager adopts a multifaceted approach to the way it analyses the sustainable profile of the Sub-Fund's investments (including sustainability focused screening & scoring, exclusions, restrictions and qualitative and quantitative reviews).

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Sustainability

The Fund has been classified as a financial product subject to Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial sector (the "SFDR"). The Fund promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices.

Benchmark

A proxy benchmark has been identified for performance comparison: MSCI Europe ND.

RISK AND REWARD PROFILE

 **The summary risk indicator assumes you keep the product for 5 years.**

The summary risk indicator is a guide to the level of risk of this product

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The following risks may be materially relevant but may not always be adequately captured by the summary risk indicator and may cause additional loss: Liquidity risk, Concentration risk and Financial, economic, regulatory and political risks.

compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. Markets could develop very differently in the future. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of a suitable benchmark over the last 10 years. These types of scenario occurred for an investment between 31.05.2013 and 31.05.2023. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years

What happens if Lombard Odier Funds (Europe) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the insolvency of the manufacturer. You may however face a financial loss should the Depositary default on its obligations. Such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- the product performs as shown in the moderate scenario
- EUR 10 000 is invested

| Investment EUR 10 000 | If you cash in after 1 year | If you cash in after 5 years (recommended) |
|----------------------------|-----------------------------|--|
| Total costs | EUR 184 | EUR 991 |
| Annual cost impact* | 1.84% | 1.84% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.63% before costs and 3.79% after costs. Part of the costs can be paid to the distributor who distributes the product for the services they provide. They will inform you of the amount.

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and what the different cost categories mean.

COMPOSITION OF COSTS
