What is this product?

Type

Mirabaud Multi Assets is a common fund with multiple compartments (fonds commun de placement à compartiments multiples") governed by Luxembourg law, established in accordance with the provisions of by Part I of the Luxembourg law of 17th December 2010 and thus qualifies as a UCITS."

Term

The term of the Sub-Fund is unlimited and therefore there is no maturity date. The Management Company may not unilaterally terminate the Sub-Fund.

Objectives

Investment Objective

The objective of the Sub-fund is to implement a cautious strategy that aims to achieve a stable capital increase over a medium term period. The Sub-fund will invest in a range of asset classes including fixed income, equity, currency and alternative related asset classes. Investments will be made without any specific country, currency or sector restriction. The fixed income related asset class will at all time represent the largest allocation and within that asset class the majority of investments will directly or indirectly be made in investment grade or developed market debt instruments.

Investment Policy

The Sub-Fund is actively managed. The Benchmark of the Class is Morningstar Category Avg. Cautious Alloc. Global Index EUR and is

shown for comparison purposes only, without implying any particular constraints to the Sub-Fund's investments.

The fund applies baseline environmental and/or social safeguards. Further information regarding the way the fund takes environmental and/or social criteria into account is available in the fund's prospectus and accessible via www.mirabaud-am.com. The fund is subject to Mirabaud Sustainable and Responsible investment policy.

Share Class Policy

The Class is not entitled to any dividend distribution.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7 which is the a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Be aware of currency risk. If your local currency is different from the Product currency, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. For more information, please see prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

What happens if Mirabaud Asset Management (Europe) SA is unable to pay out?

You may not face a financial loss due to the default of Mirabaud Asset Management (Europe) SA. The assets of the Fund are held in safekeeping by its depositary, Bank Pictet & Cie (Europe) AG – Luxembourg branch. In the event of the insolvency of Mirabaud Asset Management (Europe) SA, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
