What is this product?

Type The Company is an open-ended umbrella investment company with variable capital (société d'investissement à capital variable) incorporated under the form of a société anonyme in Luxembourg on 21 March 2000, under the name "BSI-MULTINVEST". It qualifies as an undertaking for collective investment in transferable securities ("UCITS") under Part I of the 2010 Law.

Objectives

Product objectives The fund invests primarily in bonds denominated in CHF and issued by first class debtors. The goal is to maximise the performance over the long term in the frame of the development of the CHF bond market, while strictly controlling the level of risk. An active duration management, on the entire curve, from the short to the mid/long term - pursues the possibility to benefit from fluctuating interest rates scenarios.

Investment approach The long-term investment objective is to achieve a combination of capital and income returns primarily from a range of corporate and government issuers bonds denominated in CHF. The sub-fund invests at least 2/3 of its assets, in accordance with the principle of risk spreading, in Debt Securities issued by Sovereigns, Supranational, Public Local Authorities, Semi-Public Enterprises or Private Borrowers without geographical limitation. The sub-fund may also invest to a limited extent in convertible and warrant issues, subordinated and below investment grade Debt Securities, Contingent Convertible Bonds and UCITS and UCIs (including ETFs). Shares acquired with convertible and warrant issues may not exceed 10% of the assets and have to be sold within 12 months of their acquisition. The sub-fund invests at least 90% of its assets in securities denominated in CHF. The remaining portion may be invested in securities denominated in other currencies that may be hedged back to CHF. The Modified Duration of the portfolio can vary depending on market conditions.

Benchmark The Fund's benchmark is SwissBond Index SBI Foreign AAA-BBB 1-10 and may be used for comparative purposes only. The Fund is actively managed and as such does not seek to replicate its benchmark index, but instead may differ from the performance benchmark in order to achieve its objective. The sub-investment manager is not constrained by the benchmark in the selection of investments and may use its discretion to invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Redemption policy Shares in the Fund can be bought and sold daily (every Business Day of the Fund). Shares will be redeemed at the nav per share

calculated on the relevant valuation day, with applications needing to be received by 12:00 pm (Luxembourg time) on the preceding business day to be processed at that day's NAV. There is no redemption charge.

Distribution policy Any income arising from this Share Class will be accumulated and automatically reinvested.

Exchange policy Subject to the conditions set down in the Prospectus, you are entitled to switch from one share class to another, either in the Fund or in another sub-fund of the Company. Please refer to the Prospectus for further information on how to switch.

Asset segregation The Fund is a sub-fund of the Company, an umbrella fund with segregated liability between sub-funds. You can find out more information about the umbrella fund in the Prospectus.

SFDR Article 6

Derivatives policy Derivatives may be used for investment and hedging.

Intended retail investor The Sub-Fund is suitable for investors, both private and institutional, that have a short term investment horizon and wish to invest in a broadly diversified portfolio of bonds denominated in CHF.

Term The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. Waystone Management Company (Lux) S.A. is not entitled to terminate the product unilaterally. The Company may mandatorily redeem any shares that are owned or held by someone in violation of laws or regulations, or if holding those shares could result in negative tax or financial consequences for the Company, such as requiring registration under various securities or investment laws.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose

money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other materially relevant risks not included in the summary risk indicator, please refer to the Prospectus for the descriptions: Contingent Convertible

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period (RHP)		3 Years	
Example Investment	CHF 10 000		
Scenarios		If you exit after 1 Year	If you exit after 3 Years (Recommended Holding Period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8 110 CHF	8 270 CHF
	Average return each year	-18.87%	-6.15%
Unfavourable	What you might get back after costs	8 570 CHF	8 360 CHF
	Average return each year	-14.35%	-5.78%
Moderate	What you might get back after costs	9 420 CHF	9 250 CHF
	Average return each year	-5.78%	-2.58%
Favourable	What you might get back after costs	9 980 CHF	9 510 CHF
	Average return each year	-0.23%	-1.67%

Unfavourable Scenario: This type of scenario occurred for an investment between (09/2019 - 09/2022).

Moderate Scenario: This type of scenario occurred for an investment between (06/2017 - 06/2020).

Favourable Scenario: This type of scenario occurred for an investment between (07/2018 - 07/2021).

The before-mentioned calculations were performed using benchmark Swiss Bond Index SBI Foreign AAA-BBB 1-10 (SF110T Index)

What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company of the Fund has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10 000 is invested.

Investment CHF 10 000		If you exit after 1 Year	If you exit after 3 Years (Recommended Holding Period)
Total Costs		611 CHF	813 CHF
Annual costs impact (*)		6.1%	2.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.30% before costs and -2.58% after costs.
