State Street Emerging Markets ESG Screened Enhanced Equity Fund ("Fund")

a sub-fund of **State Street Global Advisors Luxembourg SICAV**

Share Class: I EUR (ISIN LU0579408591)

State Street Emerging Markets ESG Screened Enhanced Equity Fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This Fund is managed by State Street Global Advisors Europe Limited ("Fund Manager"), which is authorised in Ireland and supervised by the Central Bank of Ireland. For more information on this product, please refer to www.ssga.com

Accurate as of: 18 February 2025

What is this product?

Type

This Fund is an open-ended public limited company (société anonyme) with variable capital (société d'investissement à capital variable or SICAV).

Term

The Company is an open-ended public limited company incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Shareholders adopted in compliance with applicable laws.

This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

Objectives

Investment objective The objective of the Fund is to provide a return in excess of the performance of emerging market equities.

Investment policies The investment policy of the Fund is to outperform the MSCI Emerging Markets Index (or any other index determined by the Directors from time to time to represent substantially the same market as the Index) over the medium and long term. The investment policy will also involve screening out securities based on an assessment of their adherence to certain ESG criteria, as further described in the Prospectus.

The Investment Manager and/or the Sub-Investment Manager, on behalf of the Fund, will invest actively with limited risk parameters relative to the Index, using the Quantitative Equity Strategy as further described in the "Investment Strategies" section of the Prospectus and also employs a negative and norms-based ESG screen prior to the construction of the portfolio of the Fund and on an ongoing basis, as further described in the "ESG Screening" subsection of the "ESG Investing" section of the Prospectus.

The securities in the portfolio are selected primarily from the securities in the index. The Fund may invest in or gain exposure to securities registered in or trading in markets other than those included in the index. The investment strategy uses defined risk parameters that mean the fund's weighting to countries, sectors and securities relative to the respective index will be limited. This is likely to limit the extent to which the Fund can outperform the MSCI Emerging Markets Index.

In order to achieve its investment objective, this Fund will only invest in:

- Equities and equity-related securities. The Fund may invest in China A Shares both via Stock Connect and RQFII regime;
- Other funds;
- Liquid assets; and
- Derivatives for efficient portfolio management and investment purposes, limited to swaps, options, futures and forward foreign exchange contracts.

The Fund may lend up to 40% of the securities it owns.

The Shares of the EUR Class are issued in Euro.

Shareholders may redeem shares on any Luxembourg, U.K and U.S business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

Intended retail investor

This Fund is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-high level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Practical information

Depositary The Fund depositary is State Street Bank International GmbH, Luxembourg Branch.

What happens if the Fund Manager is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the depositary is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

We have classified this product as 4 out of 7, which is a medium risk category.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of State Street Global Advisors Europe Limited to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the performance of your investment will be impacted by the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Fund Prospectus, available free of charge at www.ssga.com.

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	269 EUR	711 EUR
Annual cost impact*	2.7%	1.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0% before costs and 4.8% after costs.
