What is this product?

Type

SICAV

Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives

Investment Objective

The investment objective of the Sub-Fund is to achieve long-term capital growth.

Investment Policy

The assets of the Sub-Fund are mainly invested worldwide either directly (min. 67%) or indirectly in equity securities that offer an exposure to emerging and transformational technological trends. The concept differentiates between technology enablers (information technology firms) and technology adopters (non-IT, first movers in respective industries, that are disrupting existing business by implementing technological advances faster than others).

Investments are made across sectors and market capitalizations and without any restriction as to the issuer's domicile. This also includes investments in the emerging markets. Emerging markets generally mean the markets of countries which are in the process of becoming modern industrial markets and therefore show higher potential, but also carry a higher risk.

The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. This product considers environmental, social and governance aspects ("ESG") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.

The Sub-Fund is actively managed without replicating any benchmark. the Sub-Fund is managed without reference to any benchmark.

Share Class Policy:

This share class of the Sub-Fund continually reinvests income.

Processing of subscription and redemption orders

You may redeem or convert shares in the Sub-Fund on any business day.

Intended retail Investor

This Sub-Fund is suited for investors with a medium to long term investment horizon seeking capital appreciation. JSS Sustainable Equity – Tech Disruptors is intended as a supplementary investment in equities for investors with a moderate to high risk tolerance.

What are the risks and what could I get in return?

Risk Indicator

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

Recommended holding period:		8 years	
Example Investment:		CHF 10 000	
		If you exit after 1 year	If you exit after 8 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 1 290	CHF 1 010
	Average return each year	-87.10%	-24.92%
Unfavourable	What you might get back after costs	CHF 6 040	CHF 9 990
	Average return each year	-39.60%	-0.01%
Moderate	What you might get back after costs	CHF 11 630	CHF 29 060
	Average return each year	16.30%	14.26%
Favourable	What you might get back after costs	CHF 15 400	CHF 39 930
	Average return each year	54.00%	18.89%

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- CHF 10 000

	If you exit after 1 year	If you exit after 8 years
Total costs	CHF 475	CHF 4 769
Annual cost impact (*)	4.8%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 16.5 % before costs and 14.3 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
