## What is this product?

### Type

SICAV

### Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

### Objectives

#### Investment Objective

The investment objective of JSS Sustainable Equity - Swiss SME Plus (the "Sub-Fund") is to achieve long-term capital growth by investing in small and medium-sized companies in Switzerland or Liechtenstein and other investments permitted under the investment policy.

#### Investment Policy

The Sub-Fund invests at least 75% directly in equity securities of small and medium-sized enterprises which are either domiciled or, in the case of holding companies, own stakes mainly in companies domiciled in Switzerland or Liechtenstein traded on a Swiss market as per requirements of Article 41 (1) c) of the 2010 Law.

Small and medium-sized enterprises are defined as all stocks listed on the Swiss stock exchange except for the large caps. Large caps are defined as the 20 largest (free-float adjusted) companies listed on the Swiss stock exchange (in accordance with the methodology applied by SIX Index). The Sub-Fund may also invest in micro caps. It is however not intended to invest more than 10% of its net assets in micro caps. Micro caps are considered the bottom 10% of all small and medium-sized companies by market capitalization (free-float adjusted) as defined per end of each calendar semester and traded on a Swiss market as per

requirements of Article 41 c) of the 2010 Law.

The Sub-Fund may hold up to 20% in large cap enterprises as per above definition.

The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8 but does not have a sustainable investment objective according to SFDR Art. 9. This product considers environmental, social and governance aspects ("ESG") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.

The Sub-Fund is actively managed without replicating any benchmark.

However, the Sub-Fund is managed with reference to SPI Small and Middle Companies CHF TR<sup>®</sup> (the "Benchmark").

#### Share Class Policy:

This share class of the Sub-Fund continually reinvests income.

#### Processing of subscription and redemption orders

You may redeem or convert shares in the Sub-Fund on any business day.

#### Intended retail investor

This Sub-Fund is suited for investors with a long-term investment horizon seeking capital appreciation. JSS Sustainable Equity - Swiss SME Plus is intended as a supplementary investment in equities for investors with a medium to high risk tolerance.

#### Depository

CACEIS Bank, Luxembourg Branch

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator helps you assess the risk associated with this product in comparison with other products. It illustrates how likely it is that you could lose money on this product, whether due to market developments or if we are unable to pay out.

On a scale of 1 to 7, we have given this product a rating of risk class 4, which is a medium risk class. The risk of potential losses from future performance is categorised as medium. In the event of unfavourable market conditions, our ability to make payments may be impaired.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

# J. Safra Sarasin

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

Recommended holding period:		8 years	
Example Investment:		10,000 CHF	
		If you exit after 1 year	If you exit after 8 years
Scenarios			
Minimum	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
Stress	<b>What you might get back after costs</b>	2,590 CHF	1,970 CHF
	Average return each year	-74.10%	-18.38%
Unfavourable	<b>What you might get back after costs</b>	8,260 CHF	8,840 CHF
	Average return each year	-17.40%	-1.53%
Moderate	<b>What you might get back after costs</b>	10,380 CHF	17,760 CHF
	Average return each year	3.80%	7.44%
Favourable	<b>What you might get back after costs</b>	12,920 CHF	23,190 CHF
	Average return each year	29.20%	11.09%

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if J. Safra Sarasin Fund Management (Luxembourg) S.A. is unable to pay out?

The investor of this product will not face financial loss due to the default of J. Safra Sarasin Fund Management (Luxembourg) S.A., as the Fund is considered to be a separate and segregated pool of assets.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- CHF 10,000.00

	If you exit after 1 year	If you exit after 8 years
<b>Total costs</b>	106 CHF	1,457 CHF
Annual cost impact (*)	1.1%	1.1% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.5 % before costs and 7.4 % after costs.

We can cover part of any costs charged by the person selling you this product. If so, this person will provide you with information about these costs.
