This PRIIP is authorised in Luxembourg.

Lemanik Asset Management S.A. is authorised in Luxembourg and regulated by the CSSF.

This Key Information Document is accurate as at 3rd January 2025.

What is this product?

TYPE

The product is a sub-fund of Convergence Lux, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The objective of the Sub-Fund is to achieve long-term capital growth– by investing under the diversification principle in the asset classes described below and focusing on providing investors with a significant and measurable social impact.

The Sub-Fund promotes environmental and social characteristics according to article 8 of the SFDR but does not have sustainable investment as its objective.

The Sub-Fund mainly invests in UCITS and/or other UCI, including open-ended ETFs ("Target Funds") investing in (i) fixed-income securities, such as but not limited to bonds, (ii) equities and equity type securities, (iii) derivatives and (iv) money-market instruments, and which may, in particular, implement the following strategies: ESG Equities; Corporate Bonds; Green Bonds; ESG Bonds; and Microfinance.

The Sub-Fund may invest in securities issued by securitisation vehicles as defined in Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12th December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation. In particular, it may invest in units or debt securities in special purpose securitisation funds, asset-backed securities, mortgage-backed securities and collateral loan obligations.

The Sub-Fund has adopted an extra-financial methodology in order to guarantee an effective selection of Target Funds which maintain on an ongoing basis environmental and social characteristics.

The investment manager supports the objectives of the SFDR regulation which aims to improve transparency to clients but, after evaluating the PAI regime requirements and considering the nature and the size of its activities as well the nature of the Sub-Fund, it concluded it would be challenging in that time to consider principal adverse impacts of investment decisions on sustainability factors (PAI) for various reasons. Accordingly, the Sub-Fund will not consider PAI. The principal reason is that the Sub-Fund has a fund-of-funds structure that involves underlying funds and investments managers who are not all ready to implement the PAI regime and from whose it is currently impossible to obtain all necessary information on the PAI.

The investment manager will at least on an annual basis review this point and reserves to change its decision in the future in order to consider adverse impacts of investment decisions on sustainability factors.

Further details on the investment strategy can be found in the corresponding SFDR pre-contractual disclosure in this prospectus.

The Fund does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

The Depositary is CACEIS Bank, Luxembourg Branch.

Further information about the Company (including the current Prospectus and most recent annual report) is available in english, and information about the Fund and other share classes (including the latest prices of shares and translated versions of this document), are available free of charge on www.fundsquare.net or by making a written request to Lemanik Asset Management S.A., 106, route d'Arlon, L-8210 Mamer, Luxembourg or by emailing fund.reporting@lemanik.lu.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

| | | | | |
|------------------------------------|---|---------------------------------|----------------------------------|---|
| Recommended holding period: | | 3 years | | |
| Example investment: | | CHF 10 000 | | |
| | | If you exit after 1 year | If you exit after 3 years | |
| Scenarios | | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | | |
| Stress scenario | What you might get back after costs | CHF 7 710 | CHF 6 830 | |
| | Average return each year | -22.9% | -11.9% | |
| Unfavourable scenario | What you might get back after costs | CHF 7 710 | CHF 7 430 | This type of scenario occurred for an investment in the product between August 2021 and October 2023. |
| | Average return each year | -22.9% | -9.4% | |
| Moderate scenario | What you might get back after costs | CHF 9 730 | CHF 10 040 | This type of scenario occurred for an investment in the product between April 2020 and April 2023. |
| | Average return each year | -2.7% | 0.1% | |
| Favourable scenario | What you might get back after costs | CHF 12 200 | CHF 11 570 | This type of scenario occurred for an investment in the proxy then the product between December 2018 and December 2021. |
| | Average return each year | 22.0% | 5.0% | |

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Lemanik Asset Management S.A. is unable to pay out?

Lemanik Asset Management S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from Lemanik Asset Management S.A.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10 000 is invested.

| Investment of CHF 10 000 | If you exit after 1 year | If you exit after 3 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | CHF 479 | CHF 871 |
| Annual cost impact (*) | 4.8% | 2.8% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.9% before costs and 0.1% after costs.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | Up to 2.00% of the amount you pay in when entering this investment. | Up to CHF 200 |
| Exit costs | Up to 1.00% of your investment before it is paid out to you. | Up to CHF 101 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.78% of the value of your investment per year. This is an estimate based on actual costs over the last year. | CHF 178 |
| Transaction costs | 0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | CHF 0 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | CHF 0 |

How long should I hold it and can I take my money out early?

Recommended holding period: 3 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible every Valuation Day (each Friday). All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 11am (Central European time) on the relevant Valuation Day. Redemption proceeds shall be paid in the relevant reference currency usually two (2) Business Days following the relevant Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

Lemanik Asset Management S.A.,
106 Route d'Arlon,
L-8210 Mamer,
Luxembourg
