The Swiss Financial Market Supervisory Authority (FINMA) is responsible for supervising UBS Fund Management (Switzerland) AG, Basel in relation to this key investor information.

This PRIIP is authorized in Switzerland.

UBS Fund Management (Switzerland) AG is authorized in Switzerland and regulated by the Swiss Financial Market Supervisory Authority FINMA.

Date of production of the KID: 23 December 2024.

What is this product?

Type

New Capital Swiss Small and Mid-Cap Future Leaders is an investment fund under Swiss law of the type "Other funds for traditional investments" pursuant to the Swiss Federal Act on Collective Investment Schemes (CISA) of 23 June 2006.

Term

This product does not have a maturity date (in other words, it is open-ended). The manufacturer may terminate the product early. The amount you would receive if such early termination took place might be lower than the amount you invested.

The recommended holding period (RHP) is displayed in the section "How long should I hold it and can I take money out early?".

Objectives

The investment objective of New Capital Swiss Small and Mid-Cap Future Leaders is primarily real capital maintenance and to grow the capital in the long term within the framework of the risk profile. The fund invests a total of at least two-thirds of the fund assets in: equities or other equity securities and rights of small and medium-sized companies that are included in the reference index or conduct the majority of their business in Switzerland and have a high level of innovation or quality. The following principles apply additionally: The aforementioned investments are made in structured products denominated in Swiss francs (CHF). SPI Extra TR (SPIEX) serves as a benchmark. The fund manager invests at their own discretion but within the specified investment restrictions. The fund may use derivatives for currency and duration management. The fund is suitable for investors with a long-term investment horizon who are primarily aiming for growth in their invested capital. The fund management company is permitted to invest a maximum of 10% of a sub-fund's assets in securities and money market instruments of any one issuer, including derivatives. When purchasing securities from an issuer included in the benchmark, an maximum overweighting of five percentage points or 125% of its percentage weighting in the benchmark may be carried out, in deviation from the aforementioned limit of a maximum of 10%. This can result in the fund's assets being concentrated on a few stocks included in the benchmark, which can lead to an overall risk for the fund that is higher than the risk of the benchmark (market risk). The investments must be diversified across at least 12 issuers. The return of the fund is primarily dependent on equity market performance and dividend payments. The fund's income remains in the fund (reinvestment).

The fund's income remains in the fund (reinvestment).

Intended retail investor

This fund applies to professional investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund can be acquired by professional investors and through selected distribution channels only.

Custodian bank

EFG Bank AG, Zürich

The current price is available at www.efgbank.com

What are the risks and what could I get in return?

Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This classifies the potential losses from future performance as medium. The past is not a reliable guide to the future, so the actual risk of loss may vary significantly.

The product can be subject to other risk factors which are not included in the summary risk indicator (SRI), such as operational, political and legal risks. See the prospectus for further details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		CHF 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 2 360	CHF 3 800
	Average return each year	-76.4%	-17.6%
Unfavourable	What you might get back after costs	CHF 7 650	CHF 9 700
	Average return each year	-23.5%	-0.6%
Moderate	What you might get back after costs	CHF 10 040	CHF 12 860
	Average return each year	0.4%	5.2%
Favourable	What you might get back after costs	CHF 12 520	CHF 16 450
	Average return each year	25.2%	10.5%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

Unfavourable scenario: This type of scenario occurred for an investment between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment between 2018 and 2023.

Favourable scenario: This type of scenario occurred for an investment between 2016 and 2021.

What happens if UBS Fund Management (Switzerland) AG is unable to pay out?

Losses are not covered by any investor compensation or guarantee scheme. In addition, in relation to EFG Bank AG, Zürich, which as the Fund's custodian is responsible for the safekeeping of its assets (the "Custodian"), there is a potential risk of default in the event that the Fund's assets held with the Custodian are lost. However, this risk of default is limited as the Custodian is required by law and regulation to segregate its own assets from the Fund's assets. The Custodian shall be liable to the Fund or the Fund's investors for any loss of a financial instrument held in custody by the Custodian or its delegate, unless the Custodian can demonstrate that the loss resulted from an external event beyond its control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 CHF is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	CHF 554	CHF 802
Annual cost impact (*)	5.5%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6.8 % before costs and 5.2 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to CHF 500
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	CHF 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.5% of the value of your investment per year. This is an estimate that is based on last year's actual costs. For products launched less than one year ago, this is an estimate based on the representation costs.	CHF 47
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 7
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	CHF 0

Additional information on costs can be found in the sales prospectus at www.efgbank.com

How long should I hold it and can I take money out early?

Recommended holding period: 5 Year(s)

The recommended holding period for this product is 5 year(s). This is the holding period we recommend based on the risk and the expected return on the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period of the product, the more your actual risk return will deviate from the product assumptions. Depending on your needs and restrictions, a different holding period may be suitable for you. We therefore recommend that you discuss this point with your client advisor.

In general, investors may demand the redemption of their units from the fund management company on any stock exchange trading day. However, the fund management company may suspend redemptions if deemed necessary in extraordinary circumstances, taking due account of investors' interests.

How can I complain?

If you have a complaint about the product, the producer of the product or the person who recommended or sold you the product, please contact your customer service representative or contact us at sh-am-complaint-switzerland@ubs.com.
