What is this product?

Type

The Product is a share of the Sub-fund Wellington Global Equity Income Fund (the "Fund") which is part of the Wellington Management Funds (Luxembourg) III SICAV (the "Umbrella Fund"), an open-ended investment fund with variable capital (société d'investissement à capital variable) of the umbrella type and is authorised under Part I of the 2010 Law and qualifies as UCITS under Article 1. paragraph 2) points a) and b) of the Directive.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long-term total returns in excess of the MSCI All Country World Index (the "Index"), as well to provide income in excess of broader equity markets, primarily investing in large cap companies worldwide.

The Fund will be actively managed, based on the belief that the market undervalues the long-term growth potential of businesses with strong returns, capital discipline and sustainable dividends; and that valuation sensitivity and balance sheet strength can provide downside mitigation and support a patient long term investment horizon. The Investment Manager seeks to identify a diversified portfolio of companies that show or provide:

- i. Ability to pay dividends – sustainable revenue growth, return on invested capital and cash flow
- ii. Willingness to pay dividends – shareholder focused management, proven track record of shareholder returns
- iii. Downside mitigation – valuation sensitive, high-quality businesses with strong balance sheets

The Fund seeks to generate a level of income that is greater than the income of broad equity markets (as measured by the Index) over the long term, however this is not guaranteed and is dependent on market conditions. The Fund does not have an absolute income target, the level of income should be expected to fluctuate over time.

The Fund will seek to support certain environmental and social characteristics and will abide by the following binding restrictions:

i. The Fund will seek to achieve net zero emissions by 2050 in alignment with the Paris Agreement, by investing a minimum of 30% of the Fund's NAV (excluding cash and cash equivalents) in companies which have established or have committed to establish science-based targets, with this percentage increasing to 55% by 2030 and 100% of the Fund by 2040.

A minimum of 30% of the Fund's net assets will be aligned to the environmental characteristics of the Fund.

The Index serves as a reference benchmark for performance comparison purposes. In addition, the FTSE All World High Dividend Yield Index (the "Secondary Index") serves as a secondary reference benchmark for market context purposes. Whilst Fund securities may be components of either the Index or Secondary Index (the "Indices"), the Indices are not considered during portfolio construction and the Investment Manager will not manage the extent to which Fund securities differ from the Indices.

The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities, or depository receipts. The Fund may invest either directly or via derivatives.

While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.

The currency of this Share class is different to the base currency of the Fund and so the performance of the Share class will be subject to the impact of the movement of the exchange rate between the currencies.

Income policy

Any income allocated to the Share class from the Fund is distributed.

Dealing Frequency

Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.

Intended retail investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation and income who are able to bear capital loss.

Depositary

State Street Bank International GmbH Luxembourg Branch.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.
