What is this product?

Type: Shares of a Sub-Fund of ASB AXION, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The main objective of the Unconstrained Bond Fund (the "Sub-Fund") is to maximize total return through a combination of both income and capital growth over the recommended holding period by means of investing in a diversified portfolio of fixed income instruments. The Sub-Fund seeks a long-term return by unconstrained and diversified exposure to the global fixed income markets without any kind of regional or sectorial restriction.

In order to achieve this objective, the Sub-Fund invests mainly in fixed and floating rate, convertible and subordinated debt securities of corporate, governmental and semi-governmental issuers worldwide, including issuers from Emerging Markets Countries and issuers with a rating below investment grade.

The relevant debt securities may be acquired either directly or through the investment in other investment funds (up to 50%). The Sub-Fund may also acquire warrants on such debt securities as well as convertible securities. The Sub-Fund's net assets may be invested in Structured Finance Securities such as asset-backed securities ("ABS") and mortgage-backed securities ("MBS") up to 10% and capital protected products.

Financial derivative instruments may be used for efficient portfolio management, hedging and investment purposes. In particular, currency financial derivative instruments will be used to ensure that a maximum of 20% of the Sub-Fund's total net assets is exposed to currencies other than the Euro.

Debt securities of issuers from Emerging Market Countries (including Chinese investments) shall not exceed 50% of the total net assets of the Unconstrained Bond Fund.

Depending on the market environment, up to 100% of the Sub-Fund's net assets may be held in liquid assets, such as cash deposits and money market instruments.

Lastly, the Sub-Fund may invest up to 20% in Contingent Convertible Bonds ("Cocos").

Benchmark: The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investment" of the Prospectus.

This is a non-distributing share class. Investment income is re-invested.

The minimum recommended holding term is 3 years.

Investors may sell on demand on any business day in Luxembourg.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the ASB AXION prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

What are the risks and what could I get in return?

RISK INDICATOR

! The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the ASB AXION prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of ASB AXION. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested.
