What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of U ASSET ALLOCATION, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to generate moderate capital appreciation across the investment horizon by investing directly or indirectly through funds.

It is an actively managed, without any restriction as to the country of the issuer including Emerging countries.

The Fund is allowed to invest in other currencies than its base currency (EUR). These investments may or may not be hedged at the Investment Manager's discretion. However, the portfolio base currency exposure will range from 40% to 110%. The Fund's performance can therefore be affected by fluctuations in those currencies against the base currency.

The Fund is not managed with reference to a benchmark.

Without any restriction as to the country of the issuer including emerging markets, the Fund may invest up to:

- 100% of its net assets in fixed income instruments including up to 10% of its net assets in Contingent Convertible bonds (Cocos) and 10% of its net assets* in Asset-backed securities (ABS), Mortgage-backed securities (MBS), Catastrophe bonds (CAT bonds)
 - 50% of its net assets in money market instruments
 - 45% of its net assets in equities, equity like instruments
 - 25% of its net assets in alternative investments
 - 20% of its net assets in convertible bonds
- * indirectly, through funds only

The maximum of 50% in money market instruments will only be reached in exceptional market situations and for a limited period of time.

Direct or indirect investments in fixed income instruments or issuers with a rating below BBB- (S&P or Fitch) or Baa3 (Moody's) or no rating are allowed up to 30% of the total net assets of the Fund.

Financial derivatives such as but not limited to Credit Default Swaps (CDS), financial futures and options may be used for efficient portfolio management and/or for hedging purposes.

In addition, the Fund can invest in structured products which will be classified according to the nature of their underlyings for the calculation of the above limits.

The Fund's base currency is EUR.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

Any income received by the Fund is distributed (distribution share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee and who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years EUR 10'000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 7'220 -27.8%	EUR 7'950 -7.4%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8'690 -13.1%	EUR 9'230 -2.6%	This type of scenario occurred for an investment in the product between March 2017 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	EUR 10'130 1.3%	EUR 10'220 0.7%	This type of scenario occurred for an investment in the product between November 2017 and November 2020.
Favourable scenario	What you might get back after costs Average return each year	EUR 11'100 11.0%	EUR 11'690 5.3%	This type of scenario occurred for an investment in the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depositary. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depositary, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10'000 is invested.

Investment of EUR 10'000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 197	EUR 610
Annual cost impact	2.0%	2.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.7% before costs and 0.7% after costs.

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg (each a Business Day). The NAV is calculated the following Business Day (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 13:00 (Luxembourg time) two (2) Business Days prior to the Calculation Day. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund or to another sub-fund free of charge.

Please refer to the prospectus for further details.
