The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising FundPartner Solutions (Europe) S.A. in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

FundPartner Solutions (Europe) S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is accurate as at 20th August 2024.

What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Protea Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may also propose to dissolve a sub-fund at a general meeting of that sub-fund.

OBJECTIVES

Objectives and investment policy

On an ancillary basis, the Sub-Fund may invest in any other type of eligible investments, including but not limited to, structured products, debt securities of any type (including money market instruments), undertakings for collective investment (UCIs) or cash.

Without being a constraint, the Sub-Fund can be exposed to 100% of its net assets to equities (and equity related securities) and debt securities should not represent more than 20% of the Sub-Fund's net assets.

The choice of investments will not be limited by geographical area (including emerging markets), economic sector or the currency in which investments will be denominated. However, depending on financial market conditions, a particular focus may be placed on a single country (or some countries) and/or on a single currency and/or on a single economic sector.

However, the Sub-Fund will not invest more than 10% of its net assets in each of the following of assets: UCIs; non-investment grade debt securities; non-rated debt securities.

Investments in closed-ended collective real estate investments (such as closed-ended Real Estate Investment Trusts (REITs)) will not exceed 20% of the Sub-Fund's net assets.

If the investment manager considers it to be in the best interests of the shareholders, the Sub-Fund may also hold up to 100% of its net assets in cash and cash equivalents on a temporary basis and for defensive purposes.

Derivatives For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over-the-counter. Nevertheless, in normal market conditions, the investment manager does not intend to use financial derivative instruments.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

ESG information The Sub-Fund's objective is to protect and grow the purchasing power of investors' capital over the long term.

The Sub-Fund promotes certain environmental and/or social characteristics. The investment process integrates ESG (Environmental, Social, Governance) aspects based, firstly on the investment manager view and, secondly on third-party research (such as ESG ratings from third party providers).

The Sub-Fund will mainly invest in equities and equity related securities (such as depositary receipts).

Dividend Policy This Class distributes income. Dividend distributions are planned.

Share Class Currency The currency of the Class is GBP.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital, for receiving regular income and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on each bank business day in Luxembourg ("the Calculation Day"). The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class or sub-fund are fulfilled with respect to this sub-fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in French, from the Administrative Agent, the distributors, the Management Company, the representative in Switzerland or online at www.swissfunddata.ch.

This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment	5 years GBP 10,000		
	If you exit after 1 year	If you exit after 5 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs Average return each year	GBP 6,560 -34.4%	GBP 2,270 -25.6%
Unfavourable scenario	What you might get back after costs Average return each year	GBP 8,880 -11.2%	GBP 10,190 0.4%
Moderate scenario	What you might get back after costs Average return each year	GBP 10,990 9.9%	GBP 15,730 9.5%
Favourable scenario	What you might get back after costs Average return each year	GBP 13,100 31.0%	GBP 18,520 13.1%

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10,000 is invested

Investment of GBP 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	GBP 81	GBP 591
Annual cost impact (*)	0.8%	0.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.3% before costs and 9.5% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	GBP 0
Exit costs	We do not charge an exit fee for this Class.	GBP 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.75% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 75
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 6
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	GBP 0

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for the Class is calculated on each bank business day in Luxembourg ("the Calculation Day"). The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
