What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Protea Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may also propose to dissolve a sub-fund at a general meeting of that sub-fund.

OBJECTIVES

Objectives and investment policy

The Sub-Fund's objective is to provide capital growth by offering mainly an exposure to equities and equity-related securities (among other rights, ADR (American Depositary Receipt) and GDR (Global Depositary Receipt)) listed in the US. The Sub-Fund is not subject to any specific industry sector constraints, although, without being a constraint, the Investment Manager intends to focus on companies which are involved in innovation sectors such as robotics, security, digital and healthcare.

In order to achieve its objective, the Sub-Fund will mainly invest directly in the securities above-mentioned; and/or in UCIs (UCITS and/or other UCIs referred to in Section 23.3(e) of the main body of the prospectus), having as main objective to invest or grant an exposure to the securities above-mentioned (within the 10% limit mentioned below). On an ancillary basis, the Sub-Fund may invest in any other type of eligible assets, among others, cash and equities other than those mentioned above.

The Sub-Fund will not invest more than 10% of its net assets in UCITS and/or other UCIs.

If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold up to 100% of its net assets in cash and cash equivalents, as among others cash deposits, money market UCIs (UCITS and/or other UCIs referred to in Section 23.3(e) of the main body of the prospectus, within the 10% limit mentioned above) and Money Market Instruments.

Derivatives For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a Regulated Market and/or OTC provided they are contracted with leading financial institutions specialized in this type of transactions and subject to regulatory supervision. Nevertheless, in normal market conditions, the Investment Manager intends to use listed options and futures offering an exposure to equities and currency derivatives (such as forward foreign exchange contracts).

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is GBP.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for this Class is calculated on each Wednesday (the "Valuation Day") based on the pricing day as of Tuesday. The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the bank business day preceding the relevant Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class or sub-fund are fulfilled with respect to this sub-fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in French, from the Administrative Agent, the distributors, the Management Company or online at www.swissfunddata.ch.

This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

| Recommended holding period (RHP): Example investment | | 5 years GBP 10,000 | | |
|---|--|-----------------------------|------------------------------|---|
| | | If you exit after 1 year | If you exit after 5 years | |
| Scenarios | | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | | |
| Stress scenario | What you might get back after costs Average return each year | GBP 6,490 -35.1% | GBP 2,880 -22.0% | |
| Unfavourable scenario | What you might get back after costs Average return each year | GBP 7,470 -25.3% | GBP 9,290 -1.5% | This type of scenario occurred for an investment in the proxy then the product between December 2021 and December 2023. |
| Moderate scenario | What you might get back after costs Average return each year | GBP 10,980 9.8% | GBP 14,790 8.1% | This type of scenario occurred for an investment in the proxy between April 2014 and April 2019. |
| Favourable scenario | What you might get back after costs Average return each year | GBP 15,470 54.7% | GBP 20,830 15.8% | This type of scenario occurred for an investment in the proxy between October 2016 and October 2021. |

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10,000 is invested

| Investment of GBP 10,000 | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | GBP 351 | GBP 2,562 |
| Annual cost impact (*) | 3.5% | 3.5% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.6% before costs and 8.1% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | We do not charge an entry fee for this Class. | GBP 0 |
| Exit costs | We do not charge an exit fee for this Class. | GBP 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.33% of the value of your investment per year. This is an estimate based on actual costs over the last year. | GBP 233 |
| Transaction costs | 0.14% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | GBP 14 |
| Incidental costs taken under specific conditions | | |
| Performance fees | Paid yearly, based on the NAV, equivalent to 10.00% of the performance of the NAV per Share exceeding the High Water Mark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. | GBP 104 |

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for this Class is calculated on each Wednesday (the "Valuation Day") based on the pricing day as of Tuesday. The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the bank business day preceding the relevant Valuation Day.
