Competent regulatory authority	Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising MultiConcept Fund Management S.A. in relation to this Key Information Document

This document was prepared on 11 May 2023.

What is the product?

Type: This Product is a common fund qualifying as UCITS Sub-fund in accordance with the UCITS law.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Management Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: The Sub-fund is a feeder fund and will as such at all times invest at least 85% of its assets in units of the master fund (CS DURACION 0-2 FI) which qualifies as a "master UCITS". The objective of this Sub-fund is to achieve capital appreciation through investment in the master fund. The Sub-fund intends to realise its investment objective by investing substantially all of its assets into the units of the master fund. The residual assets of the Sub-fund will consist in ancillary liquid assets, including cash, cash equivalents and short-term deposits. These residual assets may be required from time to time for liquidity purposes and payment of costs and expenses of the Sub-fund. The Sub-fund intends to minimize the level of ancillary liquid assets held for these purposes. The master fund takes as reference in the management the return of the 12-months Euribor index. The Sub-fund does not track the benchmark precisely but tries to exceed its performance subject to an internally applied deviation limit and may therefore differ from it moderately— both positively and negatively. The master fund will either directly or indirectly through other UCI (with a maximum of 10% of the Net Asset Value), invest 100% of its total exposure in public and/or corporate debt (including deposits, covered bonds and liquid money market instruments, listed or not, with a maximum of 15% in asset backed securities). It can invest up to 25% of its total exposure in credit derivatives on public or private issuers (OECD), with a maximum average duration of 2 years. Issuers and markets will mainly be based in the OECD, with a maximum of 20% of the master fund's total exposure in emerging markets. The average duration of the portfolio will not exceed 2 years. More than 60% of the total exposure will be invested in issuers rated at least BBB- or, if lower, the Kingdom of Spain's rating at each point in time. For the purpose of the minimum rating requirement, it will be enough if it is met by at least one of the rating agencies registered in the EU. Foreign currency exposure will not exceed 10% of the total exposure. The master fund can invest more than 35% of its net asset value in securities issued or guaranteed by a Member State of the EU, an Autonomous Community, a Local Authority, supranational institutions where Spain is a member and countries with a credit rating equal or higher than the Kingdom of Spain's rating. The master fund can invest in derivative instruments, listed or not in organised derivatives markets, with the objective of hedging or speculation. The maximum market risk exposure through derivative instruments will be limited to the master fund's total net asset value. The investor can buy or sell units of the Sub-fund on a daily basis, as further defined in the prospectus. This Unit Class does not make distributions. The Sub-fund shall bear the costs of standard brokerage and bank charges incurred by the Sub-fund through securities transactions in relation to the portfolio.

Intended Retail Investor: This Product is intended for retail investors with sufficient knowledge and experience in collective investment schemes and similar products, an ability to bear a minor investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 2 out of 7, which is a low risk class and poor market conditions are very unlikely to impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance.**

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		5 years	
Example Investment:		EUR 10,000	
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	EUR 8,241 -17.6%	EUR 8,042 -4.3%
This type of scenario occurred for an investment FTSE EuroBIG 1 to 3 Year between 31.03.2018-31.03.2023.			
Unfavourable scenario	What you might get back after costs Average return each year	EUR 9,583 -4.2%	EUR 9,551 -0.9%
This type of scenario occurred for an investment FTSE EuroBIG 1 to 3 Year between 31.03.2016-31.03.2021.			
Moderate scenario	What you might get back after costs Average return each year	EUR 10,016 0.2%	EUR 10,051 0.1%
This type of scenario occurred for an investment FTSE EuroBIG 1 to 3 Year between 30.06.2013-30.06.2018.			
Favourable scenario	What you might get back after costs Average return each year	EUR 10,243 2.4%	EUR 10,376 0.7%

What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	EUR 62	EUR 313
Annual cost impact (*)	0.6%	0.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.7% before costs and 0.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the value of your investment when entering.	EUR 0
Exit costs	0.0% of the value of your investment before it is paid out to you.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.4% of the value of your investment per year.	EUR 44
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 18
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a daily (on business days) basis. No redemption fees or penalties will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: MultiConcept Fund Management S.A., 5, rue Jean Monnet, L-2180 Luxembourg. Investors shall note that a complaint can be also addressed by e-mail to list.lux-multiconcept@credit-suisse.com or visit website: www.credit-suisse.com/microsites/multiconcept/en.html.
