Competent regulatory authority	Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising MultiConcept Fund Management S.A. in relation to this Key Information Document

This document was prepared on 14 November 2024.

What is the product?

Type: This Product is an investment company qualifying as UCITS Sub-fund in accordance with the UCITS law.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Board of Directors of the Investment Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: The Sub-fund is actively managed with reference to ICE BofA BB-B Rated Developed Markets High Yield Constrained Index (the "Benchmark") seeking to invest primarily in fixed and floating-rate income securities, bonds, mortgage- and other asset-backed securities (including collateralized debt obligations) and convertible securities with financial performance and high level of sustainability. The Sub-fund has a sustainable investment objective (within the meaning of Article 9 of Regulation (EU) 2019/2088). Details are available in the prospectus and the ESG website disclosure of the Sub-fund. The Investment Manager will use its discretion to deviate the weighting of certain components of the Benchmark and to invest in companies or sectors not included in the Benchmark in order to take advantage of specific investment opportunities. It is thus expected that the performance of the Sub-fund will substantially deviate from the Benchmark. At least two thirds of the Sub-fund's net assets are invested in non-investment grade debt securities with a rating of BB+ or below determined by Standard&Poor's, Moody's or from another recognized rating agency or deemed to be of the same credit quality by the Investment Manager, as well as the market-implied rating. The Sub-fund may invest up to 20% of its net assets in money market instruments and/or in other liquid assets including investments in the form of sight deposits. The Sub-fund invests without being limited to a specific currency, geographic region or industrial sector; a proportion of the Sub-fund's assets may be invested in Emerging Markets (up to 10%). In order to reach its objective, the Sub-fund can use derivative instruments to protect against movements in currencies and security prices and for efficient portfolio management. The Sub-fund uses derivatives to reduce the impact of changes in currency exchange rates on the performance for this Share Class. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make distributions. The Sub-fund shall bear the costs of standard charges incurred by the Sub-fund through securities transactions in relation to the portfolio.

Intended Retail Investor: This Product is intended for professional and institutional investors, with an ability to bear a minor investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 3 out of 7, which is a medium-low risk class and poor market conditions are unlikely to impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance.**

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		5 years	
Example Investment:		USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	USD 5,009 -49.9%	USD 5,538 -11.1%
This type of scenario occurred for an investment ICE BofA BB-B Rated Developed Markets High Yield Constr. (TR) between 09.2017-09.2022.			
Unfavourable scenario	What you might get back after costs Average return each year	USD 8,549 -14.5%	USD 10,463 0.9%
This type of scenario occurred for an investment ICE BofA BB-B Rated Developed Markets High Yield Constr. (TR) between 10.2019-10.2024.			
Moderate scenario	What you might get back after costs Average return each year	USD 10,580 5.8%	USD 11,962 3.6%
This type of scenario occurred for an investment ICE BofA BB-B Rated Developed Markets High Yield Constr. (TR) between 01.2016-01.2021.			
Favourable scenario	What you might get back after costs Average return each year	USD 12,096 21.0%	USD 14,436 7.6%

What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	USD 237	USD 1,244
Annual cost impact (*)	2.4%	2.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0% before costs and 3.6% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the value of your investment when entering.	USD 0
Exit costs	0.0% of the value of your investment before it is paid out to you.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year.	USD 103
Transaction costs	1.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 134
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a daily (on business days) basis. No redemption fees or penalties will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: MultiConcept Fund Management S.A., 5, rue Jean Monnet, L-2180 Luxembourg. Investors shall note that a complaint can be also addressed by e-mail to list.lux-multiconcept@credit-suisse.com or visit website: www.credit-suisse.com/microsites/multiconcept/en.html.
