Competent authority of the initiator of the PRIIPS | The Financial Sector Supervisory Commission (Commission de Surveillance du Secteur Financier, CSSF) is responsible for the supervision of the approved Mandarine Funds SICAV in the Grand Duchy of Luxembourg. Mandarine Gestion is approved in France and regulated by the Financial Markets Authority (Autorité des Marchés Financiers).

Date of production | 10/02/2023

Please note

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type | Mandarine Global Sport is a sub-fund of a SICAV (Société d'Investissement à Capital Variable) under Luxembourg law. Each shareholder has a right of co-ownership in the assets of the SICAV in proportion to the number of shares held.

Duration | The UCI was created on 31/12/2020 and its expected lifetime is 99 years.

Objectives | Mandarine Global Sport (the "Fund") is an international equity fund whose objective is to provide investors with long-term capital growth from a diversified portfolio of shares from companies of all capitalisation sizes and from all geographic regions whose economic model and products or services are involved in or offer solutions to issues relating to sport, and to achieve a higher net performance than the MSCI ACWI Net Total Return EUR Index (all countries world index) NR (the "Index").

The investment strategy is based on the selection of growth-type companies of all capitalisation types which are delivering above-average growth, in particular in terms of their results and margins, and which have the potential to increase in value.

The investment strategy is based on active management carried out on the basis of a "bottom up" approach in order to select companies which offer solutions or contribute positively or are involved in sports-related issues (sports infrastructure, sporting equipment, sporting accessories, sports economics, performance measurement and medical assistance, e-sport, sports nutrition).

To this end, the sub-fund will, more specifically, endeavour to select companies whose turnover is mainly exposed to one or more of the aforementioned sports-related investment issues. The sub-fund shall also apply a "Best-In-Universe" extra-financial strategy which consists of favouring the best rated issuers from an extra-financial point of view, regardless of their field of activity. Mandarine Gestion's ESG expertise unit attributes extra-financial scores to the securities. The extra-financial analysis results in a five-step ESG score from A (best score) to E (worst score).

The following are excluded from the Fund's investment universe:

- Issuers with the most unfavorable ESG rating ("E" rating),
- Issuers whose head office is located in high-risk jurisdictions or non-cooperative territories or countries considered at risk from a tax point of view according to internal analysis (tax haven, tax opacity, etc.);

- The following issuers: professional football clubs and companies engaged in the sale of weapons;

The Sub-fund will invest at least 75% of its net assets in equities issued by companies operating in sectors related to sport in any geographic area.

The sub-fund may invest up to 30% of its net assets in shares of companies located in emerging countries and, in particular but not limited to, "A-Shares" through the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect programme (together, the "Stock Connects"). The sub-fund shall also be authorised to invest up to 25% of its net assets in money market instruments or debt securities.

Management objective: To achieve a higher return than that of its benchmark index.

The Fund takes sustainability risks and ESG characteristics into account in its selection process. In this regard, the Fund promotes environmental or social characteristics within the meaning of Article 8 of the SFDR Regulation. The Fund is subject to a sustainability risk as defined in the risk profile of the prospectus.

Benchmark index | MSCI ACWI Net Total Return EUR Index

What are the risks and what could I receive in return?

Risk indicator

The risk indicator assumes that you hold the units for five years.

Please note: The actual risk may be very different if you opt for an early exit, and you may receive less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product in relation to other products. It indicates the likelihood of this product incurring losses in the event of market movements or our inability to pay you.

Performance scenarios (amounts expressed in euro) |

What you get out of this product depends on future market performance. The future trend of the market is random and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may evolve very differently in the future. The stress scenario shows what you might receive in extreme market situations. This type of scenario occurred for an investment between one and five years.

Recommended holding period: Five years Example of an investment: € 10,000			
Scenarios		If you exit after one year	If you exit after five years (Recommended holding period)
Minimum	As this product does not provide market protection, there is no guaranteed minimum return if you exit before five years. You could lose all or part of your investment.		
Tensions	What you could receive after deducting costs	€ 1,180	€ 330
	Average annual return	-88.23%	-49.43%
Unfavourable	What you could receive after deducting costs	€ 7,530	€ 8,960
	Average annual return	-24.71%	-2.16%
Intermediate	What you could receive after deducting costs	€ 10,000	€ 10,010
	Average annual return	-0.03%	0.02%
Favourable	What you could receive after deducting costs	€ 12,480	€ 12,410
	Average annual return	24.84%	4.42%

The figures shown include all costs of the product itself as well as fees due to your advisor or distributor. These figures do not take into account your personal tax situation which may also affect the amounts you receive.

This table shows the amounts that you could obtain according to different scenarios and the following parameters:

- an investment of € 10,000;
- and holding periods of one year and five years, the latter being equal to the recommended holding period.

These different scenarios indicate how your investment might perform and allow you to make comparisons with other products.

The scenarios presented are an estimate of future performance based on past data on changes in the value of this investment. They are not an accurate indicator. What you receive will depend on how the market develops and how long you hold the investment or product, as well as your personal tax situation.

It is not easy to exit this product. If you exit the investment before the end of the recommended holding period, there is no guarantee and you may incur additional costs.

What happens if Mandarine Gestion is unable to make payments?

Mandarine Gestion is a portfolio management company approved and monitored by the Financial Markets Authority (Autorité des Marchés Financiers) and must comply with organisational and operational rules, particularly with regard to equity. The investor's funds or the income of the UCI are paid into one or more bank accounts opened in the name of the UCI. Consequently, the default of Mandarine Gestion would not have an impact on the assets of the UCI. The UCI does not benefit from a compensation scheme.

How much will this investment cost me?

You may be asked to pay additional costs by the person selling or advising you about the product. If this is the case, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time (amounts expressed in euro):

The tables show the amounts taken from your investment to cover the different types of costs. These amounts depend on how much you invest, how long you hold the product and how the product performs. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We used the following assumptions:

- that in the first year you would get back the amount you invested (0% annual return). that for the other holding periods, the product evolves as indicated in the intermediate scenario.
- € 10,000 is invested.

	If you exit after one year	If you exit after five years (Recommended holding period)
Total costs	€ 348	€ 964
Annual cost impact (*)	3.48%	1.89% each year

(*) It shows the extent to which costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 1.90% before costs are deducted and 0.02% after this deduction.

We may share the costs with the person selling you the product to cover the costs they provide to you. This person will inform you of the amount.

These figures only include any potential fees that the person selling or advising you on the product may charge you. This person will inform you of the actual distribution costs.

Composition of costs:

One-off entry or exit costs		If you exit after one year
Entry costs	2.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling you the product will inform you of the actual costs.	EUR 200
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Recurrent costs levied each year		
Management fees and other administrative and operating expenses	1.25% of the value of your investment per year. This estimate is based on actual costs over the past year.	EUR 125
Transaction costs	0.50% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	EUR 50
Ancillary costs levied under certain conditions		
Performance-related fees and profit-sharing fees	15.00% of the outperformance above the benchmark index (MSCI ACWI Net Total Return EUR Index) in the event of a positive annual performance. The actual amount varies depending on the performance of your investment. The above estimate of total costs includes the average over the last five years.	EUR 0

How long do I have to keep it and can I withdraw money early?

The recommended investment horizon is a minimum of five years due to the nature of the underlying asset of this investment. The shares of this fund are medium-term investment vehicles and should be acquired with a view to diversifying your assets. You can redeem your shares daily, redemption transactions are executed daily. Holding for less than the recommended period is likely to penalise the investor.

How can I make a complaint?

You may make a complaint about the product or the conduct of (i) Mandarin Gestion (ii) a person who provides advice about the product, or (iii) a person who sells the product, by sending an e-mail or a letter to the following persons, as appropriate:

- If your complaint concerns the product itself or the behaviour of Mandarin Gestion: please contact Mandarin Gestion by e-mail (serviceclient@mandarine-gestion.com) or by post, preferably with acknowledgement of receipt (Mandarine Gestion - for the attention of the Risk and Compliance Department - Mandarin Gestion - 40 avenue George V - 75008 Paris). A complaints procedure is available on the company's website at https://www.mandarine-gestion.com/uploads/reg/reg_mandarine_reclamation-traitement_en.pdf
- If your complaint concerns a person who provides advice on or offers the product, please contact that person directly.
