What is this product?

Type: This product is a sub-fund of an investment company with variable capital established under the laws of Liechtenstein as an undertaking for collective investment in transferable securities (“UCITS”).

Term: The product does not have a pre-defined maturity and it is an open-ended structure.

The Fund may be liquidated by the Management Company in certain circumstances, as described further in the Prospectus of the Umbrella.

Objectives

The investment objective of the Fund is to generate long-term capital appreciation. The Fund will seek to achieve the investment objective by investing primarily in a variety of asset classes, including commodities, hedge funds, private equity or real estate (indirectly), etc. which have an alternative investment strategy. The investments are made primarily in UCITS and other collective investment undertakings comparable to UCITS. The Fund seeks to maintain an overall strategic overweight of equity risk exposure relative to that of debt instruments. Considerable investments in equity and debt securities from Emerging Markets. “Emerging Markets” are countries that are in the process of developing into modern industrialized nations and therefore offer a high potential but also an elevated risk. Percentage of investments in units of other UCITS may amount to 100% of the net assets.

The Fund may invest in derivatives (financial instruments derived from other securities or assets) for hedging purposes, efficient portfolio management and / or investment purposes.

The Fund's portfolio is actively managed. The Fund is not managed in reference to a benchmark.

Environmental, social and governance (“ESG”) aspects are considered as part of the Fund's investment process.

The Fund may have positions in cash and cash equivalents.

The portfolio transaction costs may have a material impact on performance.

Investors may on a weekly basis subscribe for shares of the Fund and may on a weekly basis redeem shares of the Fund.

Any income generated by the Class is reinvested in the Class, which increases the value of the shares.

Intended retail investor: Investment in the Fund is suitable for investors with basic knowledge about the financial instruments contained in the Fund. An investment horizon of 5 years is recommended and the ability to bear medium investment losses. There is a risk of losing the full capital invested.

This Key Information Document describes a sub-fund of the Umbrella. The prospectus and the periodic reports are prepared for the entire Umbrella named at the beginning of the Key Information Document.

The Fund is a sub-fund of the Umbrella with segregated liability between sub-funds. This means that the holdings of the Fund are maintained separately from the holdings of other sub-funds of the Umbrella and your investment in the Fund will not be affected by claims against any other sub-fund of the Umbrella.

Conversion of shares: You do not have the right to convert your shares in this Fund into shares of another sub-fund of the Umbrella.

What are the risks and what could I get in return?

Risk indicator

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

There are no material risks not included in the SRI. The Fund bears additional risks (e.g. operational, political, legal or liquidity risk) as explained in the prospectus, not covered in the SRI.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if LGT Capital Partners (FL) Ltd is unable to pay out?

The assets of the Fund are held in safekeeping by LGT Bank Ltd (the "Depositary"). In the event of the insolvency of LGT Capital Partners (FL) Ltd (the "Management Company"), the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. For a more detailed description of the Management Company's and the Depositary's respective role, duties and liability towards the Fund please refer to the prospectus.

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | 264 EUR | 1.404 EUR |
| Annual cost impact (*) | 2,6% | 2,6% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5,7% before costs and 3,1% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (0,0% of amount invested / 0 EUR).

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|--|--------------------------|
| Entry costs | We do not charge an entry fee. | None |
| Exit costs | We do not charge an exit fee for this product. | None |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2,6% of the value of your investment per year. As the share class has not had a full year of performance, this figure is an estimated figure. This figure may vary from year to year. | 255 EUR |
| Transaction costs | 0,1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 9 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | None |

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Investment in the Fund is suitable for investors with a long term investment time horizon and who are prepared to sustain fluctuations of and a potential decline in the net asset value of their investments that may last for an extended period.

You can request the sale of your product on a weekly basis. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

The Fund does not charge any redemption fees.
