Auris Gestion is authorised in France and is regulated by the Autorité des Marchés Financiers (AMF).

This KID is accurate as at 29th February 2024.

What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Auris (the "Fund"), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However if, for any reason, the net assets of the Sub-Fund or of any Class or Sub-Class fall below the equivalent of EUR 5,000,000, or if a change in the economic or political environment of the Sub-Fund, Class or Sub-Class may have material adverse consequences on the Sub-Fund, Class or Sub-Class's investments, or if an economic rationalisation so requires, the board may decide on a compulsory redemption of all Shares outstanding in the Sub-Fund, Class or Sub-Class on the basis of the Net Asset Value per Share (after taking account of current realisation prices of the investments as well as realisation expenses), calculated as of the day the decision becomes effective.

OBJECTIVES

The objective of the Sub-Fund is to achieve a better risk-adjusted performance than that of global equity markets.

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

The Sub-Fund will invest its assets mainly in traditional undertakings for collective investment UCIs) which invest mainly or offer an exposure to equities of large, mid or small capitalisation companies listed on a stock exchange.

The choice of investments (and the exposure of the underlying assets of the UCIs) will neither be limited by geographic area (including emerging markets), economic sector, nor in terms of currencies in which investment will be denominated. Depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single economic sector and/ or in a single currency.

On an ancillary basis, the Sub-Fund may invest in any other type of eligible investments such as equities and equity-related securities, structured products, debt securities with an investment grade rating, money market instruments, Alternative UCIs.

For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter.

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold up to 100% of its net assets in cash and cash equivalents, such as cash deposits, money market UCIs.

This Class is cumulative. Dividend distributions are not planned.

INTENDED RETAIL INVESTORS

The product is reserved for professional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

The depositary is Caceis Bank Luxembourg S.A.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, latest NAVs) are available free of charge, in English, at www.aurisgestion.com or by making a request at contact@aurisgestion.com.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years USD 10 000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	USD 6 930 -30.7%	USD 3 250 -20.1%	
Unfavourable scenario	What you might get back after costs Average return each year	USD 8 310 -16.9%	USD 9 160 -1.7%	This type of scenario occurred for an investment in the product between March 2015 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	USD 10 180 1.8%	USD 11 700 3.2%	This type of scenario occurred for an investment in the product between June 2014 and June 2019.
Favourable scenario	What you might get back after costs Average return each year	USD 13 040 30.4%	USD 14 550 7.8%	This type of scenario occurred for an investment in the product between June 2016 and June 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Auris Gestion is unable to pay out?

Auris Gestion does not make any payment to you in respect of this product and you will always be paid in the event of default by Auris Gestion. A default of the Management Company that manages the assets of the product would have no effect on your investment as the custody and safekeeping of the assets of the product are ensured by the custodian. The product does not benefit from any guarantee or protection.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 622	USD 2 106
Annual cost impact (*)	6.2%	3.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.7% before costs and 3.2% after costs.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. Poor market conditions could impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to USD 300
Exit costs	Up to 0.50% of your investment before it is paid out to you. The person selling you this product will inform you of the actual charge.	Up to USD 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.60% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 260
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 12
Incidental costs taken under specific conditions		
Performance fees	There is no performance fees for this product.	USD 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

A redemption order is executed at the redemption price ruling on a Business Day (a full business day on which banks are fully open in Luxembourg), the application for the redemption of shares must reach the Administration Agent (FundPartner Solutions (Europe) S.A.) before 4:00 p.m. (Luxembourg time) two (2) Business Days preceding the relevant Business Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address :

AURIS GESTION, 153 boulevard Haussmann, 75008 PARIS
