Auris Gestion is authorised in France and is regulated by the Autorité des Marchés Financiers (AMF).

This KID is accurate as at 10th December 2024.

What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Auris (the "Fund"), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

This Sub-Fund is a diversified Sub-Fund aiming to generate medium term performance through discretionary and opportunistic management in debt and capital markets.

Index :

The Sub-Fund's primary investment objective is to outperform its benchmark of reference which is composed of : 25% EURO SHORT TERM RATE (€str) + 8,5 bps, 25% of the EURO STOXX 50 TR and 50% of the Bloomberg Euro-Aggregate: Treasury – 1-3 Years. It is to be used as a comparative assessment and is calculated in Euros and reinvested dividends. The Sub-Fund is actively managed by the Manager with the aim of achieving its investment objective. The benchmark indicator is used retrospectively as a comparative assessment. Consequently, the Investment Manager's investment decisions are in no way constrained or limited by the components of the benchmark indicator or the weighting of each of them. Thus, the composition of the Sub-Fund's portfolio may differ significantly from that of the benchmark indicator.

Investment Strategy :

The investment process is structured around two investment pillars:

- Definition for strategic asset allocation in line with the Sub-Fund targets in order to decide the Sub-Fund's exposure to the different asset classes. Allocation is regularly reviewed in light of market developments in order to obtain a stable average yield over the long term.
- Tactical allocation of the Sub-Fund is based upon a "bond picking" management approach for rates, a "stock picking" management approach for securities, and based upon a discretionary management approach and is derived from fundamental criteria.

In addition, we carry out a pragmatic and systematic integration of extra-financial issues throughout the investment process based on ESG data providers, MSCI and Spread Research. At least 90% of the Sub-Fund's portfolio will be invested in accordance with the ESG methodology. Many criteria in the E, S and G pillars are taken into account, such as pollution, resource management, respect for human rights, employee safety, remuneration, board independence, etc. The Sub-Fund's ESG rating aims to be higher than the ESG rating of the investment universe after excluding a minimum of 20% of the lowest rated stocks. The main methodological limitations identified are the use of two external data providers.

It is also stated that the management team will exclude from any investment states designated as tax havens, companies that are in clear breach of global standards (the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights) as well as companies involved in controversial arms production, casinos and gambling, tobacco production, coal mining and coal-fired power generation.

The Auris Diversified Beta Sub-Fund is classified under article 8 of the SFDR Regulation. The Sub-Fund promotes environmental and social characteristics but does not make sustainable investments.

The Sub-Fund is invested in a wide range of assets throughout the world, with no geographical, sectorial or monetary limitations, such as:

- from 0 to 35% in listed company shares, including up to 35% in emerging markets (OCDE), up to 15% in emerging markets (non-OCDE) and up to 25% in securities linked with gold and commodities;
- from 50 to 100% in interest rate securities issued by companies or governments, with a Sub-Fund duration bracket between 0 and 5;
- from 0 to 10% in collective investment funds;
- the currency risk on currencies other than the euro may be up to 40% of the net assets.

Finally to either profit from or hedge against market fluctuations or for effective portfolio management, the Sub-Fund may use derivative financial instruments.

The Sub-Fund is actively managed.

The reference currency of the Fund is the Euro.

This Class is cumulative. Dividend distributions are not planned.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

The depositary is CACEIS Bank Luxembourg S.A.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, latest NAVs) are available free of charge, in English, at www.aurisgestion.com or by making a request at contact@aurisgestion.com.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		3 years EUR 10 000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 7 140 -28.6%	EUR 7 150 -10.6%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8 660 -13.4%	EUR 9 130 -3.0%	This type of scenario occurred for an investment in the product between March 2017 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	EUR 9 940 -0.6%	EUR 10 470 1.5%	This type of scenario occurred for an investment in the product between February 2018 and February 2021.
Favourable scenario	What you might get back after costs Average return each year	EUR 11 730 17.3%	EUR 11 740 5.5%	This type of scenario occurred for an investment in the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Auris Gestion is unable to pay out?

Auris Gestion does not make any payment to you in respect of this product and you will always be paid in the event of default by Auris Gestion. A default of the Management Company that manages the assets of the product would have no effect on your investment as the custody and safekeeping of the assets of the product are ensured by the custodian. The product does not benefit from any guarantee or protection.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed :

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 461	EUR 950
Annual cost impact (*)	4.6%	3.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 1.5% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.50% of the amount you pay in when entering this Investment.	Up to EUR 250
Exit costs	There is no exit fee for this product.	N/A
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.50% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 150
Transaction costs	0.61% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 61
Incidental costs taken under specific conditions		
Performance fees	15% maximum and above the indices. The performance fee is crystallized and payable yearly. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The investor can buy or sell shares of the Fund on every day which is a bank business day in Luxembourg, at 12:00 (Paris time).

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address :

AURIS GESTION, 153 boulevard Haussmann, 75008 PARIS
website: www.aurisgestion.com
contact@aurisgestion.com
