### What is this product?

<b>Type</b>	Contractual umbrella fund under Swiss law, type "Securities funds"
<b>Term</b>	This product has no maturity date. The sub-fund has been established for an indefinite period. Pursuant to the Prospectus, including the Fund Agreement, the fund management is unilaterally entitled to terminate and dissolve the product at any time.
<b>Objectives</b>	<p>The aim of the sub-fund ("Fund") is to achieve steady capital growth over the long term by means of a conservative risk strategy. The sub-fund invests at least 2/3 of its assets in variable and fixed-interest bonds denominated in Swiss francs (CHF) and issued by governments, international organizations or companies. In addition, the fund may also invest up to 1/3 of its assets in other securities on a globally diversified basis. Units in other collective investment schemes are limited to a maximum of 20% of assets. Derivative financial instruments may be used for hedging and/or investment purposes.</p> <p>The fund is based on a benchmark index that represents the market for Swiss franc (CHF) denominated bonds. However, it is free in the selection and weighting of investments.</p> <p>Units can be issued and redeemed on any bank working day in Zurich (Monday to Friday).</p>
<b>Retail investor target group</b>	This product is aimed at private investors who have no or little knowledge and/or experience of investing in funds, who have a medium-term investment requirement and who can bear possible investment losses.

## What are the risks and what could I get in return?

### Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Low risk

Higher risk

The risk indicator is based on the assumption that you will hold the product for 3 years. Should you liquidate the investment early, the actual risk may differ significantly and you may get less in return.

It is possible that you will not be able to sell your product easily or that you may have to sell it at a price that will have a significant impact on your proceeds.

The overall risk indicator helps you to assess the risk associated with this product compared to other products. It shows how likely you are to lose money on this product because the markets perform in a particular way or we are unable to make a payout to you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you out.

**Please note the currency risk, should your reference currency be different to the currency of the product.** It is possible that you may receive payments in a different currency, so your final return will depend on the exchange rate between these two currencies. This risk is not taken into account in the indicator given above.

This product does not include protection against future market developments, so you could lose all or part of the capital invested.

### Performance scenarios

What you ultimately gain from this product depends on future market developments. Future market development is uncertain and cannot be predicted with certainty.

The unfavourable, moderate and favourable scenario that are presented illustrate the worst, average and best performance of the product/a suitable benchmark over the last 10 years. However, the market could develop in a completely different way in future.

### Recommended holding period 3 years

#### Investment 10 000 CHF

#### Scenarios

#### Minimum:

**There is no minimum guaranteed return. You could lose some or all of your investment.**

		If you exit after: 1 year	If you exit after: 3 years (recommended holding period)
<b>Stress scenario</b>	What you might get back after costs	8 220 CHF	8 470 CHF
	Average return each year	- 17.75 %	- 5.39 %
<b>Unfavourable scenario</b>	What you might get back after costs	8 950 CHF	8 840 CHF
	Average return each year	- 10.5%	- 4.01%
<b>Moderate scenario</b>	What you might get back after costs	9 990 CHF	10 030 CHF
	Average return each year	- 0.12%	0.1%
<b>Favourable scenario</b>	What you might get back after costs	10 390 CHF	10 350 CHF
	Average return each year	3.92%	1.17%

The figures quoted include all the costs of the product itself, but may not include all the costs you have to pay to your adviser or distributor as well as the costs of your adviser or distributor. Your personal tax situation has also not been taken into account. This may also affect the amount achieved in the end.

The stress scenario shows what the return could be under extreme market conditions.

Unfavourable scenario: This type of scenario was the result of an investment between 10/2019 and 09/2022.

Moderate scenario: This type of scenario was the result of an investment between 05/2016 and 04/2019.

Favourable scenario: This type of scenario was the result of an investment between 11/2013 and 10/2016.

## What happens if 1741 Fund Solutions AG is unable to pay out?

This product exists as an independent asset (special asset) and is separate from the assets of 1741 Fund Solutions AG.

As a result, the product would not be affected in the event of a default by 1741 Fund Solutions AG. The default by 1741 Fund Solutions AG would have no impact on the assets of the product.

## What are the costs?

### Costs over time

The tables show the amounts that are taken from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here illustrate an example investment amount and various possible investment periods.

We have made the following assumption:

- In the first year you would get back the amount invested (0% annual return). For the other holding periods we have assumed that the product develops as shown in the middle scenario.
- CHF 10 000 is invested per annum.

**The person selling or advising you on this product may charge you additional costs. If this is the case, this person will inform you of these costs and explain how these costs will affect your investment.**

Example investment 10 000 CHF	If you exit after: 1 year	If you exit after: 3 years (recommended holding period)
<b>Total costs</b>	85 CHF	<b>258 CHF</b>
Impact of costs annually (*)	0.85 %	0.85 %

(\*) These figures illustrate how costs reduce your return per year over the holding period. For example, assuming you exit at the end of the recommended holding period, your average return per annum is expected to be 0.95% before charges and 0.10% after charges.

### Composition of costs

The table below shows:

- how the different types of costs each year affect the investment return you might receive at the end of the recommended holding period
- what the different categories of costs include

If you exit after: 1 year			
<b>One-off costs</b>	Entry costs	Not applicable	We do not charge an entry fee for this product, however, the person selling you the product may charge a fee.
	Exit costs	Not applicable	We do not charge an exit fee for this product, however, the person selling you the product may charge a fee.
<b>Recurring costs (per annum)</b>	Administrative fees and other administrative or operating costs	64 CHF	0.64% of the value of your investment per year. These charges are calculated on the basis of the average assets of the sub-fund. This is an estimate based on the costs incurred last year.
	Transaction costs	21 CHF	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying assets for the product. The actual amount depends on how much we buy and sell.
<b>Additional costs under certain conditions</b>	Performance fee	Not applicable	There is no performance fee for this product.

## How long should I hold the investment and can I take my money out early?

### Recommended holding period 3 years

We recommend a holding period of at least 3 years due to the risk and return profile of the product. However, you can redeem the product on the next possible redemption date. For the conditions for redemption, please refer to the currently valid prospectus including the fund agreement. Regardless of the holding period, exit costs may be incurred as shown in the table on the composition of costs.

## How can I complain?

A complaint regarding the person responsible for advising on or selling a product may be made directly to that person or to the bank. To lodge a complaint about the product or the conduct of the PRIIP manufacturer, please contact: 1741 Fund Solutions AG, "Complaints Management", info@1741group.com.
