What is this product?

Type

SICAV

Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives

Investment Objective

The investment objective of JSS Responsible Equity – India (the "Sub-Fund") is to achieve long-term capital growth by investing in companies in India considering ESG criteria and other investments permitted under the investment policy.

Investment Policy

The assets of the Sub-Fund are mainly invested either directly (min. 67% of the Sub-Funds assets) or indirectly in all forms of equity securities (such as ordinary and preference shares, depositary receipts, etc.) domiciled in India, or whose business activities are concentrated in India or, in the case of holding companies, that are invested mainly in shares of companies domiciled in India.

The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. For further information of the Sub-Fund under the SFDR, investors are referred to the SCHEDULE V "SFDR Disclosures".

The Sub-Fund is actively managed without replicating any benchmark.

However, the Sub-Fund is managed with reference to MSCI India NR Index

(the "Benchmark"). Generally, the majority of the positions within the Sub-Fund are constituents of the Benchmark. In order to exploit specific investment opportunities the Investment Manager may discretionarily select securities not included in the Benchmark. In addition, the Investment Manager integrates sustainable aspects which lead to an exclusion of investable Benchmark components. The holdings and their weightings in the Sub-Fund's portfolio will diverge from the weightings of the securities included in the Benchmark therefore the Sub-Fund's returns may deviate from the performance of the Benchmark.

Share Class Policy:

This share class of the Sub-Fund continually reinvests income.

Processing of subscription and redemption orders

You may subscribe, redeem or convert shares in the Sub-Fund on any business day. Subscription and redemption orders must be received by the transfer agent in Luxembourg at the latest one (1) Business Days before the Valuation Day, no later than 12.00 (noon) Luxembourg time. Please refer to the issuing document.

Intended retail investor

The Sub-Fund is suitable for investors with a medium to long-term investment horizon who are aiming for asset growth. As a supplementary investment in the equities segment, the Sub-Fund is aimed for investors with a medium to high risk tolerance.

Depositary

CACEIS Bank, Luxembourg Branch

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

J. Safra Sarasin

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

Recommended holding period:		8 years	
Example Investment:		10,000 CHF	
		If you exit after 1 year	If you exit after 8 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,040 CHF	450 CHF
	Average return each year	-89.60%	-32.13%
Unfavourable	What you might get back after costs	6,360 CHF	7,770 CHF
	Average return each year	-36.40%	-3.10%
Moderate	What you might get back after costs	9,960 CHF	12,880 CHF
	Average return each year	-0.40%	3.21%
Favourable	What you might get back after costs	15,970 CHF	21,790 CHF
	Average return each year	59.70%	10.23%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between November 2021 and December 2023.

What happens if J. Safra Sarasin Fund Management (Luxembourg) S.A. is unable to pay out?

The investor of this product will not face financial loss due to the default of J. Safra Sarasin Fund Management (Luxembourg) S.A., as the Fund is considered to be a separate and segregated pool of assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- CHF 10,000.00

	If you exit after 1 year	If you exit after 8 years
Total costs	534 CHF	2,996 CHF
Annual cost impact (*)	5.3%	2.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.9 % before costs and 3.2 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
