WHAT IS THIS PRODUCT?

Type

Pictet CH - Enhanced Liquidity CHF is a contractual investment fund and is authorised as an "other fund for traditional investments" in Switzerland.

Term

This product has no maturity date. The Fund has been established for an indefinite period. However, it may be wound up at any time by the Fund Management or the custodian bank. Dividend distribution policy: Distributed. You may redeem your investment upon demand. Dealing frequency: Daily.

Objectives

Generate a stable return and preserve the value of your investment.

Reference Index

FTSE CHF 6-Month Eurodeposit (CHF), an index that does not take ESG factors into account.

Portfolio Assets

The fund invests primarily in money market instruments and bonds with short maturities and high ratings. These investments are denominated or hedged in Swiss francs so that the exchange rate risk is non-existent or limited.

Derivatives and Structured Products

The fund may use derivatives to reduce various risks (hedging) and portfolio management costs, as well as to increase its exposure to certain assets.

Fund Currency

CHF

Investment Process

To actively manage the fund, the investment manager uses market, interest rate and credit risk analysis to select securities that it believes offer the best risk-adjusted returns. The fund is not sustainably managed; the manager is likely to invest in issuers with low ESG profiles. However, it takes into account the ESG characteristics of issuers when selecting and weighting them. The fund's investment policy is similar to that of an Article 6" financial product according to the European Union's regulations on sustainable investment information."

Intended retail investor

Suitable for investors with all levels of knowledge and/or experience, seeking capital preservation, capital growth, and income distribution, and who have an investment horizon of 6 months. The product does not have any capital guarantee and up to 100% of their capital is at risk.

Depositary Bank

Banque Pictet & Cie SA, Route des Acacias 60, 1211 Geneva 73, Switzerland.
Further Information

Under certain conditions, Unit Holders may switch (convert) most of the Unit of any Fund or Unit Class into any other Fund or Unit Class. Please refer to the prospectus for detailed information.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

1	2	3	4	5	6	7

← Lower risk   Higher risk →

⚠️ The risk indicator assumes you keep the product for 6 months.
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product may be exposed to further risks that are not included in the Summary Risk Indicator. Further information can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.
Markets could develop very differently in the future.
Recommended holding period: 6 months
Example Investment: CHF 10,000

Scenarios		IF YOU EXIT AFTER 6 MONTHS
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable scenario: This type of scenario occurred for an investment between 2023 and 2023.

WHAT HAPPENS IF PICTET ASSET MANAGEMENT S.A. IS UNABLE TO PAY OUT?

The product is not covered by any deposit protection scheme. However, the Fund Management is mandated by law to hold the assets of the Fund with the custodian bank and keep them separate from its own assets. A default of Pictet Asset Management S.A. will therefore have no impact on the value of your investment in the product.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested.

	IF YOU EXIT AFTER 6 MONTHS
Total costs	CHF 12
Annual cost impact (*)	0.1%

(*) This illustrates how costs reduce your return over the holding period. For example it shows that if you exit at the recommended holding period your average return is projected to be -0.3% before costs and -0.4% after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures do not include any distribution fees, however the person selling you the product may charge you and they will inform you of the actual distribution fee.
