WHAT IS THIS PRODUCT?

Type

Pictet - Climate Government Bonds is a Fund of an open-ended investment company with variable capital ("SICAV") with segregated liability between Funds and is authorised as an Undertaking for Collective Investment Transferable Securities ("UCITS") in Luxembourg.

Term

This product has no maturity date. The Fund is formed for an indefinite period. However, the Board of Directors may in certain cases decide to close the Fund or at any time propose to close the Fund at an extraordinary general Shareholders' meeting. Dividend distribution policy: Accumulated. You may redeem your investment upon demand. Dealing frequency: Daily.

Objectives

To increase the value of your investment, through income and investment growth. A sustainable strategy of low carbon emission exposure in view of achieving the objectives of the Paris Agreement is also applied.

Reference Index

FTSE WBGI All Maturities Hedged to USD, an index that does not take into account environmental, social and governance (ESG) criteria. Used for risk monitoring, performance objective and performance measurement.

Portfolio Assets

The Fund mainly invests in government bonds issued by countries that are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management) or in the opinion of the Investment Manager are in the process of implementing policies that may lead to a meaningful improvement. The Fund may invest worldwide, including in emerging markets and Mainland China, and can invest across any currency. These may include Sharia-compliant bonds. Some of these investments may be below investment grade.

Derivatives and Structured Products

The Fund may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use derivatives and structured products to gain exposure to portfolio assets.

Fund Currency

USD

Investment Process

In actively managing the Fund, the Investment Manager selects countries based on their carbon emissions reduction and following uses a combination of macroeconomic, market and issuer analysis to build a diversified portfolio of securities it believes offer the best risk-adjusted returns. The Fund's management approach uses strict risk controls. There may be engagement with countries to positively influence climate related matters. For further information, please refer to our exclusion framework in the Responsible Investment policy* SFDR product category Article 9. The performance of the Fund is likely to be significantly different from that of the benchmark, because the Investment Manager has significant discretion to deviate from its securities and weightings.

Intended retail investor

Suitable for investors with all levels of knowledge and/or experience, seeking capital growth, and income distribution, and who have an investment horizon between 3 and 5 years. The product does not have any capital guarantee and up to 100% of their capital is at risk.

Depository Bank

Bank Pictet & Cie (Europe) AG, Succursale de Luxembourg, 15A, Avenue J.F. Kennedy, L-1855 Luxembourg.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the product for 3 year(s).
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

This product may be exposed to further risks that are not included in the Summary Risk Indicator. Further information can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

Markets could develop very differently in the future.

Recommended holding period: 3 years

Example Investment: CHF 10,000

Scenarios		IF YOU EXIT AFTER 1 YEAR	IF YOU EXIT AFTER 3 YEARS
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable scenario: This type of scenario was calculated based on the appropriate benchmark or proxy used for an investment between 2015 and 2018.

WHAT HAPPENS IF PICTET ASSET MANAGEMENT (EUROPE) S.A. IS UNABLE TO PAY OUT?

Pictet Asset Management (Europe) S.A. is a société anonyme. The SICAV is also a société anonyme and its assets are segregated from those of the Management Company. The SICAV has entrusted the Depositary Bank with the safekeeping of its assets, which are kept separated from the Depositary Bank's assets. A default of Pictet Asset Management (Europe) S.A. will therefore have no impact on the value of your investment in the product. However, you may benefit from a consumer protection scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested.

	IF YOU EXIT AFTER 1 YEAR	IF YOU EXIT AFTER 3 YEARS
Total costs	CHF 655	CHF 777
Annual cost impact (*)	6.6%	2.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.5% before costs and -1.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures do not include any distribution fees, however the person selling you the product may charge you and they will inform you of the actual distribution fee.
