## WHAT IS THIS PRODUCT?

### Type

Pictet CH Enhanced - Swiss Equity Opportunities is a subfund of an open-ended contractual investment fund with segregated liability between subfunds and is authorised as an other fund for traditional investment in Switzerland.

This product has no maturity date. The Fund has been established for an indefinite period. However, it may be wound up at any time by the Management Company or the custodian bank. Dividend distribution policy: Distributed. You may redeem your investment upon demand. Dealing frequency: Daily.

### Objectives

### Reference Index

Swiss Performance Index (SPI), an index that does not take ESG factors into account.

### Portfolio Assets

The fund invests mainly in shares of companies domiciled in Switzerland or which carry out the majority of their activities in Switzerland.

### Derivatives and Structured Products

The fund may use derivatives to reduce various risks (hedging) and portfolio management costs, as well as to increase its exposure to certain assets. The fund may also invest in structured products.

### Compartment Currency

CHF

### Investment Process

In actively managing the fund, the investment manager uses fundamental analysis of companies in order to select and hold over a long period securities for which it anticipates a positive price performance (long positions) and, at the same time, to sell securities for which it expects to record a negative price performance (short positions via sales of borrowed securities, also known as short sales). The manager excludes companies that generate a significant portion of their revenues from activities deemed incompatible with Pictet Asset Management's responsible investment principles, such as thermal coal, tobacco and controversial weapons. It also seeks to select and overweight investments with a high ESG profile. The manager also works to influence companies on material sustainability issues. The fund's investment policy is similar to that of an "Article 8" financial product according to the European Union's regulations on sustainable investment information.

### Intended retail investor
