## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

### OBJECTIVES

The Fund seeks to offer the highest possible value increase linked to short term interest yields in CHF by investing in eligible high-quality, short-term money market instruments such as fixed rate certificates of deposit, commercial paper, treasury bills of private and public issuers denominated in CHF as well as eligible deposits with credit institution. This will result in high liquidity whilst preserving capital.

The Fund is actively managed and qualifies as a "Money Market Fund" within the meaning of the MMFR and more specifically as a Standard Variable MMF within the meaning of Article 2(15) of the MMFR.

The Fund is allowed to invest in money market instruments in other currency than its base currency (CHF) provided that the respective currency exposure is in principle fully hedged.

The Fund is not managed in reference with a benchmark.

The Fund will only invest in instruments eligible under the MMFR :

- whose residual maturity does not exceed 2 years provided that the time remaining until the next interest rate reset date is less than or equal to 397 days
- which are rated at least "P-2" by Moody's or equivalent (with the exception of money market instruments of a least investment grade quality issued or guaranteed by a central, regional or local authority or central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank)
- which have received a favorable assessment in accordance with the internal credit quality assessment procedure as described in the prospectus

If the rating of a security is downgraded below P2, it will be sold within 3 months from the date at which the rating was lowered.

The Fund aims to maintain a weighted average maturity of its portfolio of no more than 6 months and a weighted average life of no more than 12 months.

The Fund may invest in derivative for hedging purposes.

The Fund's base currency is CHF.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

Any income received by the Fund is reinvested (capitalisation share).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee, who are looking for growing their capital, and who wish to hold their investment over 1 year.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 1 year.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>1 year</b>	
<b>Example investment:</b>		<b>CHF 10'000</b>	
		<b>If you exit after 1 year</b>	
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress scenario</b>	<b>What you might get back after costs</b>	CHF	9'520
	Average return each year		-4.8%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	CHF	9'530
	Average return each year		-4.7%
		This type of scenario occurred for an investment in the proxy between March 2019 and March 2020.	
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	CHF	9'570
	Average return each year		-4.3%
		This type of scenario occurred for an investment in the proxy between March 2017 and March 2018.	
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	CHF	9'780
	Average return each year		-2.2%
		This type of scenario occurred for an investment in the proxy between December 2022 and December 2023.	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depositary. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depositary, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### Costs over time (\*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10'000 is invested.

<b>Investment of CHF 10'000</b>	<b>If you exit after 1 year</b>
<b>Total costs</b>	CHF 354
<b>Annual cost impact</b>	3.5%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.8% before costs and -4.3% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 3.00% of your investment). The intermediary will inform you of the actual charge.

## Composition of costs

Performance fees	There is no performance fee for this product.	CHF 0

## How long should I hold it and can I take my money out early?

### Recommended Holding Period (RHP): 1 year.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 1 year but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg or in the United States (each a Business Day). The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 13:00 (Luxembourg time) one (1) full bank business day in Luxembourg prior to the Calculation Day. Redemption proceeds shall be paid within one (1) Business Day following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund or to another sub-fund free of charge.

Please refer to the prospectus for further details.
