What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in worldwide convertible bonds or equivalent with a minimum rating of B- (S&P or FITCH) or B3 (Moody's) or an equivalent internal rating determined by the Investment Manager.

The Fund is actively managed.

The currency risk is limited to 10% of the net assets of the Fund.

The Fund promotes environmental (E) and social (S) characteristics while investing in companies with good governance practices. It aims to trend towards an average Environmental, Social and Governance (ESG) rating which is higher than that of the Refinitiv Global Hedged Convertible Bond Index (EUR) (the "Benchmark") and a lower carbon footprint (as measured by the weighted average carbon intensity).

The sustainability strategy is based on 2 main components:

- ESG exclusion criteria (negative screening);
- ESG inclusion approach (positive screening).

A qualitative sustainability analysis is performed on each selected security and is based on the assessment of climate risk, environmental strategy, social capital and corporate governance. Calculations of the ESG score/rating of the Fund are carried out only on bonds within the portfolio. The ESG analysis covers at least 80% of the Fund's net assets.

The Fund uses the Benchmark for performance objective. The Benchmark is representative of the investment universe and of the risk profile of the Fund. Although the Fund's securities will primarily correspond to those of the Benchmark, the Investment Manager has significant discretion to deviate from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities. The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund may invest its net assets up to:

- 100% in High yield (including non convertible bonds or similar up to 20%)
- 50% in Emerging countries
- 10% in equity (excluding preferred shares).

The equities held by the Fund will only be the result of bond conversions and will be sold within a period of maximum 6 months.

The Fund will not invest in Contingent Convertible bonds (CoCos).

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

The equity sensitivity of the Fund shall not exceed 70%.

The Fund may use derivatives such as but not limited to futures, swaps including Credit Default Swaps (CDS), options and foreign-exchange forward contracts in order to hedge the portfolio and/or expose it to equity, interest rate, credit, foreign-exchange and volatility risk.

The Fund's base currency is EUR.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

Any income received by the Fund is distributed (distribution share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee and who wish to hold their investment over 3 years.

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10'000 is invested.
