What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 20 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in Chinese convertible bonds and exchangeable bond. The Fund will invest through the Shanghai and Shenzhen Hong Kong Stock Connect and/or through the Renminbi Qualified Foreign Institutional Investor (RQFII) licence.

The Fund is actively managed.

The Fund is not managed in reference to a benchmark.

The Fund may invest its net assets up to:

- 100% in securities issued or guaranteed by the People's Republic of China (PRC) but in this case the Fund must hold securities from at least 6 different issues and a single issue may not exceed 30% of the total amount.

The Fund will not invest in Contingent Convertible bonds (CoCos).

The Fund's base currency is CNH.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrative Agent. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is also suitable for investors who may bear capital losses, who do not need capital guarantee and who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a currency other than your local currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicator.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years EUR 10'000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 5'010	EUR 4'470	
	Average return each year	-49.9%	-14.9%	
Unfavourable scenario	What you might get back after costs	EUR 5'010	EUR 4'470	This type of scenario occurred for an investment in the proxy between May 2015 and May 2020.
	Average return each year	-49.9%	-14.9%	
Moderate scenario	What you might get back after costs	EUR 9'580	EUR 9'520	This type of scenario occurred for an investment in the proxy then the product between June 2016 and June 2021.
	Average return each year	-4.2%	-1.0%	
Favourable scenario	What you might get back after costs	EUR 16'950	EUR 12'440	This type of scenario occurred for an investment in the proxy then the product between June 2018 and June 2023.
	Average return each year	69.5%	4.5%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depositary. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depositary, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10'000 is invested.

Investment of EUR 10'000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 630	EUR 2'045
Annual cost impact	6.3%	3.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.9% before costs and -1.0% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 3.00% of your investment). The intermediary will inform you of the actual charge.

Composition of costs

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 5 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The Net Asset Value (NAV) is weekly, dated each Monday being a full bank business day in Luxembourg or in China (each a Business Day). In other cases, the NAV will be set on the next Business Day. The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date as described above. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 12:00 (Luxembourg time) five (5) Business Days prior to the Calculation Day. Redemption proceeds shall be paid within three (3) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund or to another sub-fund free of charge.

Please refer to the prospectus for further details.
