

# Key Information Document

U ACCESS - Euro Credit Obiettivo 2028 (the "Fund")

Class: RC EUR - ISIN: LU2630361314

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

Name: U ACCESS - Euro Credit Obiettivo 2028 RC EUR  
Product manufacturer: UBP Asset Management (Europe) S.A.  
ISIN: LU2630361314  
Website: www.ubp.com

Call +352 228 0071 for more information.

The Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg is responsible for supervising the product manufacturer and the Fund.  
This KID is dated 28/10/2024.

## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund has a maturity date. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 20 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

### OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in a wide range of fixed income instruments (both Investment grade and High yield).

The Fund has a maturity date of 18 December 2028 unless the terms are changed before said date. Due to the maturity date, the portfolio turnover will be relatively low.

The Fund invests in products/issuers with a minimum rating of B- (S&P or Fitch), B3 (Moody's) or an equivalent rating by another rating agency.

If the rating is downgraded below B-/B3 or equivalent, the security may be kept or sold, at the Investment Manager's discretion and in the best interest of the shareholders.

The Fund is allowed to invest in other currencies than its base currency (EUR). The currency risk against EUR will be largely hedged.

The Fund is not managed in reference to a benchmark.

The Fund may invest its net assets up to:

- 70% in High yield
- 60% in Emerging countries
- 20% in Contingent Convertible bonds (CoCos).

The Fund may be exposed to High yield credit via the use of CDS (Credit Default Swap) and may use derivatives instruments such as but not limited to CDS, FX forward, interest rate swaps and futures.

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

Exposure to high yield bonds is implemented via cleared and diversified high yield CDS indices. CDS indices offer a liquid exposure to high yield and bear minimal interest rate risk.

The Fund's base currency is EUR.

Any income received by the Fund is reinvested (capitalisation share).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment until 18 December 2028.

### OTHER INFORMATION

Depository: BNP Paribas S.A., Luxembourg Branch.

Administrative, Registrar and Transfer Agent: Caceis Bank, Luxembourg Branch.

Assets segregation: Please refer to the section "What happens if the product is unable to pay out?".

SFDR Classification: Article 6.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, NAVs) are available free of charge in English on www.ubp.com or by making a written request to the registered office of the product manufacturer.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product until 18 December 2028.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	Until the product matures EUR 10'000		
	If you exit after 1 year	If you exit at maturity	
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 3'550	EUR 3'750
	Average return each year	-64.5%	-17.8%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 7'820	EUR 9'050
	Average return each year	-21.8%	-2.0%
	This type of scenario occurred for an investment in the proxy between September 2017 and September 2022.		
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10'140	EUR 11'790
	Average return each year	1.4%	3.3%
	This type of scenario occurred for an investment in the proxy between May 2014 and May 2019.		
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 11'900	EUR 12'980
	Average return each year	19.0%	5.3%
	This type of scenario occurred for an investment in the proxy between January 2014 and January 2019.		

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV and from the assets of the Depositary. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depositary, the Fund may suffer a financial loss.

In the event of insolvency of the product manufacturer, the Fund's assets will not be affected.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time (\*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10'000 is invested.

Investment of EUR 10'000	If you exit after 1 year	If you exit on 18 December 2028
<b>Total costs</b>	EUR 389	EUR 1'186
<b>Annual cost impact</b>	3.9%	2.0%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.3% before costs and 3.3% after costs.

These figures include the 2.40% Placement Fee as described in the Entry costs below.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.40% Placement Fee amortised within 3 years since launch (0.20% per quarter) If a redemption is made before the 3 years since launch, a Redemption Charge will be levied as described in the Redemption Charges table in the prospectus. The Redemption Charge is paid to the Fund to protect remaining investors for the portion of the 2.40% Placement Fee not yet amortised.	Up to EUR 240
Exit costs	There is no exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.29% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 129
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 20
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

## How long should I hold it and can I take my money out early?

### Recommended holding period (RHP): until the maturity date of 18/12/2028.

The RHP was chosen for investors as a specific time for their investment to mature while taking advantage of a diversified portfolio. Investors should be prepared to remain invested until the maturity date but can nevertheless redeem their investment at any time.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg or in the United Kingdom or Italy or Eurex (each a Business Day). The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date as described above adjusted for potential Redemption Charges. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 13:00 (Luxembourg time) one (1) Business Day prior to the NAV Date. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

Conversion of shares is allowed within the Fund free of charge.

Please refer to the prospectus for further details.

## How can I complain?

Complaints can be sent in written form by e-mail ([LuxUBPAMcompliance@ubp.com](mailto:LuxUBPAMcompliance@ubp.com)) or to the following address of the product manufacturer at: UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Luxembourg.
