Website of the manufacturer: www.carmignac.com

Date of production of the KID : 27/09/2024

WHAT IS THIS PRODUCT?

TYPE

Carmignac Investissement is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

TERM

The fund was launched on 11 January 1989 for a period of 99 years, except in the cases of early dissolution or extension.

OBJECTIVE

The fund's objective is to outperform its reference indicator over a recommended investment horizon of five years. The reference indicator is the MSCI AC WORLD NR.

The fund is invested in financial markets all over the world. Its main performance drivers are as follows

- (i) Equities: at least 60% of the Fund's net assets are permanently exposed to international equities (all capitalisations, without restrictions in terms of sector or region, including emerging countries);
- (ii) Currencies: the fund may use currencies other than the fund's valuation currency for exposure or hedging purposes. Net currency exposure may be as much as 125% of net assets;
- (iii) Credit: the fund invests on all international markets.

Up to 10% of the fund's net assets may be invested in unlisted securities selected by the portfolio manager.

The fund uses futures and options for hedging or arbitrage purposes, and/or to expose the portfolio to the following risks (directly or via indices): currencies, interest rates, equities (all caps), ETFs, dividends, volatility, variance (the latter two categories for up to 10% of net assets) and commodities (up to 20% of assets). The envisaged leverage, calculated as the sum of nominal amounts without netting or hedging, is 200% but may be higher under certain conditions. Up to 10% of the net assets may be invested in contingent convertible bonds ("CoCos").

The fund may invest up to 10% of its net assets in units or shares of investment funds.

This fund is an actively managed UCITS where the investment manager has discretion over the composition of the portfolio, subject to the stated investment objectives and policy. The fund's investment universe is at least partly derived from the indicator. The fund's investment strategy

is not dependent on the indicator. Therefore, the fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

The fund promotes environmental/social characteristics in accordance with Article 8 of the sustainability-related financial disclosures regulation (SFDR) through "best-in-universe" and "best-effort" approaches and an active engagement policy. An analysis of extra-financial criteria leads to a reduction of at least 25% in the fund's investment universe through negative screening to exclude companies whose non-financial ratings reflect high risk. In addition, the fund invests at least 50% of its net assets in sustainable investments within the meaning of the SFDR and aims to gradually reduce the portfolio's carbon emissions. The definition of sustainable investment used by the fund is based on the framework of the United Nations Sustainable Development Goals (SDGs). This framework is only one of the frameworks that can be used to illustrate positive results; others may reveal different results. The fund's sustainability risk may differ from that of the reference indicator.

INTENDED RETAIL INVESTOR

Due to the fund's equity market exposure, this fund is suitable for investors who do not plan to withdraw their money within 5 year(s), and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 18:00 CET/ CEST and are executed on the next business day using the previous day's NAV.

These units are accumulation units.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com. Information on past performance for the last 10 years, where this data is available, and calculations of monthly past performance scenarios are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower risk Higher risk →

The recommended holding period is 5 year(s).

This product does not include any protection from future market performance so you could lose some or all of your investment.

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations.
- Liquidity risk: the markets in which the fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the fund may be caused to liquidate, initiate or modify its positions.

If the fund is denominated in a currency other than the official currency of the country where the fund is being marketed, the return, when expressed in the official currency of the country where the fund is being marketed, may change depending on currency fluctuations.

The summary risk indicator shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

		5 years	
		If you exit after 1 year	If you exit after 5 years
Recommended holding period:		5 years	
Example Investment:		10 000 CHF	
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1 790 CHF	1 810 CHF
	Average return each year	-82.10%	-28.95%
Unfavourable	What you might get back after costs	7 290 CHF	8 090 CHF
	Average return each year	-27.10%	-4.15%
Moderate	What you might get back after costs	9 960 CHF	11 970 CHF
	Average return each year	-0.40%	3.66%
Favourable	What you might get back after costs	15 140 CHF	16 280 CHF
	Average return each year	51.40%	10.24%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between March 2015 and March 2020.
- The moderate scenario occurred for an investment between May 2018 and May 2023.
- The favourable scenario occurred for an investment between April 2016 and April 2021.

WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the management company. In the event of the latter's default, the product's assets held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the fund.

There is no compensation or guarantee system in place that would fully or partially offset this loss.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

Cost over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 CHF. The figures are estimates and may change in the future.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

	If you exit after 1 year	If you exit after 5 years
Total costs	709 CHF	2 638 CHF
Annual cost impact (*)	7.1%	4.2% each year

*This table illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,5% before costs and 0,3% after costs."

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4,00 % of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion doesn't charge any entry fee. The person selling you the product will inform you of the actual charge.	Up to 400 CHF
Exit costs	We do not charge an exit fee for this product.	0 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,50% of the value of your investment per year. This estimate is based on actual costs over the past year.	150 CHF
Transaction costs	1,13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	113 CHF
Incidental costs taken under specific conditions		
Performance fees	20,00% max of the outperformance once performance since the start of the year exceeds that of the reference indicator, even if negative, and if no past underperformance still needs to be offset. The actual amount will vary depending on how well your investment performs. The estimate of aggregated costs above includes the average for the last five years.	59 CHF

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Given the fund's exposure to the equity market, the recommended investment period is more than 5 year(s).

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible each business day. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

The management company reserves the right to introduce caps on redemption requests ("gates") in order to spread redemptions across several NAV dates where such redemption requests exceed the 5% threshold (net redemptions of subscriptions expressed as a percentage of the Fund's net assets).

HOW CAN I COMPLAIN?

If you have any complaints about this product or the manufacturer's conduct, you can use different means of communication: you can lodge them by email to complaints@carmignac.com, by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com.

If there is no response within two months or if you consider the response provided by Carmignac Gestion unsatisfactory, you can contact the AMF Ombudsman by letter or using the online form (<https://www.amf-france.org/en/amf-ombudsman>).

OTHER RELEVANT INFORMATION

The fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com.

This fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S and FATCA. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor.

The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
