This Key Information Document is dated 01 February 2025.

## What is this product?

**Type:** This product is a sub-fund of an investment company with variable capital established under the laws of Liechtenstein as an undertaking for collective investment in transferable securities (“UCITS”).

**Term:** The product does not have a pre-defined maturity and it is an open-ended structure.

The Fund may be liquidated by the Management Company in certain circumstances, as described further in the Prospectus of the Umbrella.

### Objectives

The Fund is a standard variable net asset value money market fund. The objective of this Fund is to achieve reasonable capital growth. The Fund will seek to achieve this by investing primarily in interest-bearing debt securities or equivalent securities and debt instruments issued by borrowers worldwide to raise short-term funds (money market instruments). Investments may also be made in forward contracts (contracting and settlement do not take place at the same time) or term deposits (deposits with a pre-agreed term and a fixed interest rate) with banks as well as in other similar funds. The Investments have a weighted average remaining time to maturity of max. 6 months resp. final maturity of max. 12 months. Investments may only be made in securities with a remaining time to maturity before payout of the nominal value of not more than 2 years whose next interest rate adjustment date must not be later than 397 days after the time of the investment.

The Fund may invest in derivatives (financial instruments derived from other securities or assets) for hedging purposes.

The Fund's portfolio is actively managed. The Fund is not managed in reference to a benchmark.

Environmental, social and governance (“ESG”) aspects are considered as part of the Fund's investment process.

The portfolio transaction costs may have a material impact on performance.

Investors may on a daily basis subscribe for shares of the Fund and may on a daily basis redeem shares of the Fund.

Any income generated by the Class is reinvested in the Class, which increases the value of the shares.

**Intended retail investor:** Investment in the Fund is suitable for investors with basic knowledge about the fixed income instruments contained in the Fund. An investment horizon of 1 years is recommended and the ability to bear very low investment losses. There is a risk of losing the full capital invested.

### Additional product information

**Product depositary:** LGT Bank Ltd (the “Depositary”)

Further information about the Fund, copies of the prospectus, the latest annual report, any subsequent half-yearly report and the latest prices of shares can be obtained free of charge in English at <https://www.lgtcp.com> or at the registered office of LGT Capital Partners (FL) Ltd.

This Key Information Document describes a sub-fund of the Umbrella. The prospectus and the periodic reports are prepared for the entire Umbrella named at the beginning of the Key Information Document.

The Fund is a sub-fund of the Umbrella with segregated liability between sub-funds. This means that the holdings of the Fund are maintained separately from the holdings of other sub-funds of the Umbrella and your investment in the Fund will not be affected by claims against any other sub-fund of the Umbrella.

**Conversion of shares:** You do not have the right to convert your shares in this Fund into shares of another sub-fund of the Umbrella.

## What are the risks and what could I get in return?

### Risk indicator

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 1 year.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This classification rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

There are no material risks not included in the SRI. The Fund bears additional risks (e.g. operational, political, legal or liquidity risk) as explained in the prospectus, not covered in the SRI.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

### Recommended holding period: 1 year

|              | Average return each year                   | 3,5%  |

(\*) The unfavourable scenario occurred for an investment between June 2021 and June 2022. The moderate scenario occurred for an investment between February 2017 and February 2018. The favourable scenario occurred for an investment between October 2023 and October 2024.

## What happens if LGT Capital Partners (FL) Ltd is unable to pay out?

The assets of the Fund are held in safekeeping by LGT Bank Ltd (the "Depositary"). In the event of the insolvency of LGT Capital Partners (FL) Ltd (the "Management Company"), the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. For a more detailed description of the Management Company's and the Depositary's respective role, duties and liability towards the Fund please refer to the prospectus.

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depositary.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

|                               | If you exit after 1 year |
|-------------------------------|--------------------------|
| <b>Total costs</b>            | 37 EUR                   |
| <b>Annual cost impact (*)</b> | 0,4% each year           |

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0,1% before costs and -0,3% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (0,0% of amount invested / 0 EUR).

### Composition of costs

| One-off costs upon entry or exit                                   |  | If you exit after 1 year |
|--|--|--------------------------|
| <b>Entry costs</b>   | We do not charge an entry fee.   | None                     |
| <b>Exit costs</b>  | We do not charge an exit fee for this product.   | None                     |
| Ongoing costs taken each year                                      |  |                          |
| <b>Management fees and other administrative or operating costs</b> | 0,3% of the value of your investment per year. This figure is based on expenses for the year ending 30/04/2024. This figure may vary from year to year.  | 34 EUR                   |
| <b>Transaction costs</b>   | 0,0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 3 EUR                    |
| Incidental costs taken under specific conditions                   |  |                          |
| <b>Performance fees</b>  | There is no performance fee for this product.  | None                     |

## How long should I hold it and can I take money out early?

### Recommended holding period: 1 year

The Fund is suitable for investors with a low risk appetite who want to be able to liquidate their investment at short notice.

You can request the sale of your product on a daily basis. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

The Fund does not charge any redemption fees.
