What is this product?

Type

CT (Lux) Global Convertible Bond (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) III (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The objective is to achieve high returns in the value of your investment.

The Fund seeks to achieve this by investing in convertible bonds (bonds that can be converted into a predetermined amount of the company's equity at certain times during its life, usually at the discretion of the bondholder). At least two thirds of the Fund's total assets will be invested in convertible bonds issued by corporations located in Europe, the United States, Japan and Asia.

The Fund will normally hold at least 51% of its assets in convertibles that the Manager considers investment grade quality, subject to the convertible bond market providing sufficient 'balanced' investment grade investment opportunities to run a well diversified portfolio. A balanced convertible is one that is not trading too far above its bond redemption value and/or that is not trading at too high a conversion premium).

The Fund may enter into financial futures contracts (including equity index, interest rate and currency contracts), to protect the Fund from adverse movements in equity markets, interest rates or currency exchange rates.

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the Refinitiv Global Focus Basket Index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 3 years.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk but a lower risk profile than equity markets.

Additional Information

Depository: State Street Bank (Luxembourg) S.A.

Fund currency is EUR. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 3 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 04/2021 to 04/2024

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 07/2019 to 07/2022

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 12/2018 to 12/2021

Recommended holding period: 3 years
Example Investment: EUR 10,000

		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,320 EUR	6,780 EUR
	Average return each year	-36.82%	-12.15%
Unfavourable	What you might get back after costs	7,950 EUR	8,370 EUR
	Average return each year	-20.52%	-5.76%
Moderate	What you might get back after costs	9,600 EUR	9,760 EUR
	Average return each year	-4.01%	-0.82%
Favourable	What you might get back after costs	11,680 EUR	11,570 EUR
	Average return each year	16.84%	4.97%

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Other risks to be considered are: Counterparty, Currency, Volatility, Credit, Derivative, High Yield Issuer and Interest rate risks.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

What happens if Carne Global Fund Managers is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the ManCo is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	667 EUR	1,008 EUR
Annual Cost Impact*	6.67%	3.36%

(*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be -0.82% before costs and 3.36% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 5% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	500 EUR
