This PRIIP is authorised in Luxembourg

The ManCo is authorized in Luxembourg and regulated by the CSSF.

7 August 2024

What is this product?

Type

CT (Lux) Global Absolute Return Bond (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) III (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The objective is to provide an absolute return irrespective of bond market direction. The Manager seeks to achieve this by investing at least two thirds of its assets in a highly diversified spread of corporate bonds issued by companies and other non-governmental organisations from the major corporate bond markets. The Fund may also invest in bonds issued by governments and supranationals and derivative contracts. Derivatives may be used to hedge investment risk, replicate investment positions, generate additional return in a risk controlled manner and for efficient portfolio management. Derivatives can also be used to obtain market exposure in excess of the net asset value of the Fund (market leverage/deleverage). The Fund may generate varying amount of market leverage at different times. In addition to investing in investment grade securities (typically those with a credit rating of AAA down to BBB) the Fund will invest in high yield securities (typically those with a credit rating of BB and below or without a credit rating). The Fund manager is able to adjust the weighting between investment grade and high yield securities in line with their view on the prospects for each area. The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is ESTR (Euro Short-Term Rate), given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 3 years.

Income from investments in the Fund will be added to the value of your shares.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least an informed level of knowledge and experience of investing in funds. It is designed for investors looking for an absolute return from income and capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk but a lower risk profile than equity markets. The fund also uses derivatives for short selling (designed to make a profit from falling asset prices).

Additional Information

Depository: State Street Bank (Luxembourg) S.A.

Fund currency is EUR. Share class currency is JPY.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

Please refer to the "Other relevant information" section below for more information.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 3 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 04/2021 to 04/2024

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 09/2014 to 09/2017

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 12/2018 to 12/2021

Recommended holding period: 3 years
Example Investment: JPY 1,000,000

		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	766,500 JPY	792,190 JPY
	Average return each year	-23.35%	-7.47%
Unfavourable	What you might get back after costs	877,020 JPY	871,360 JPY
	Average return each year	-12.30%	-4.49%
Moderate	What you might get back after costs	949,810 JPY	950,940 JPY
	Average return each year	-5.02%	-1.66%
Favourable	What you might get back after costs	1,035,060 JPY	1,030,280 JPY
	Average return each year	3.51%	1.00%

What happens if Carne Global Fund Managers is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the ManCo is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- JPY 1,000,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	60,493 JPY	81,809 JPY
Annual Cost Impact*	6.05%	2.74%

(*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.08% before costs and -1.66% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 5% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	50,000 JPY
Exit costs	This is the charge that may be taken from your investment when you choose to sell. We do not charge an exit fee for this product, but the person selling you the product may choose to do so.	0 JPY
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.55% of the value of your investment per year. This is an estimate based on actual costs over the last year.	5,500 JPY
Transaction costs	0.49% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	4,884 JPY
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period 3 year(s)

It is recommended that you stay invested in the Fund for at least 3 year(s). This period has been selected for illustrative purposes only and reflects this medium-term nature of the Fund's investment objective. There is no minimum or maximum holding period and you can redeem your shares without penalty on any Luxembourg Business Day. Your return may be negatively impacted if you redeem your shares prior to the recommended holding period.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

E-mail: complaints@carnegroup.com,

Mail: Carne Global Fund Managers (Luxembourg) S.A. 3, Rue Jean Piret, L-2350 Luxembourg.
