## What is this product?

### Type

CT (Lux) Diversified Growth (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) III (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

### Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

### Objectives

The objective is to achieve an increase in the value of your investment over the medium to long term with a well balanced risk profile. The Fund seeks to achieve this by gaining exposure to a mix of traditional and alternative assets such as equities (ordinary shares in companies) including developing and smaller company markets, and bonds as well as indirect investment in property and commodities. This will be accomplished mainly through a combination of investment in cash, Exchange Traded Funds (a security that tracks an index, a commodity or a basket of assets but is bought and sold like an equity), financial derivatives (an investment contract between the Fund and a counterparty the value of which is derived one or more underlying asset), listed certificates issued by banks (such as a savings certificate that entitles the purchaser to receive interest over a fixed period), as well as swap contracts, currency and third party collective investments similar in structure to this Fund. The effect that changes in currency exchange rates may have on your investment can be reduced through the purchase currency forward contracts (the purchase or sale of a specific amount of currency at a predetermined price on a predetermined future date). This is commonly known as a 'Hedge'. The Hedge reduces the effect of both positive and negative changes in exchange rates. The Fund may also purchase liquid assets (cash, government and corporate bonds and other monetary instruments). The Fund is actively managed. The Fund intends to target a return of ESTR (Euro Short-Term Rate) +4% over a rolling 3 year period and its portfolio is not constrained by this benchmark. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 3 years.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com).

### Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives across a variety of different asset classes and this diversification tends to result in a lower risk profile than investing purely in equity markets. The fund also uses derivatives for short selling (designed to make a profit from falling asset prices).

### Additional Information

Depository: State Street Bank (Luxembourg) S.A.

Fund currency is EUR. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com). You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com) in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

Please refer to the "Other relevant information" section below for more information.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the value of your investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 03/2015 to 03/2020

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 02/2017 to 02/2022

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 07/2016 to 07/2021

**Recommended holding period:** 5 years  
**Example Investment:** EUR 10,000

		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>3,890 EUR</b>	<b>4,250 EUR</b>
	Average return each year	-61.09%	-15.73%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>8,230 EUR</b>	<b>8,220 EUR</b>
	Average return each year	-17.67%	-3.85%
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>9,510 EUR</b>	<b>9,530 EUR</b>
	Average return each year	-4.91%	-0.95%
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>11,170 EUR</b>	<b>10,380 EUR</b>
	Average return each year	11.67%	0.76%

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Other risks to be considered are: Counterparty, Currency, Volatility, Credit, Derivative, High Yield Issuer and Interest rate risks.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

## What happens if Carne Global Fund Managers is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the ManCo is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	<b>732 EUR</b>	<b>1,716 EUR</b>
<b>Annual Cost Impact*</b>	<b>7.32%</b>	<b>3.34%</b>

(\*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.39% before costs and -0.95% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	This includes distribution costs of 5% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	500 EUR
<b>Exit costs</b>	This is the charge that may be taken from your investment when you choose to sell. We do not charge an exit fee for this product, but the person selling you the product may choose to do so.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.92% of the value of your investment per year. This is an estimate based on actual costs over the last year.	192 EUR
<b>Transaction costs</b>	0.35% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	35 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	

## How long should I hold it and can I take money out early?

### Recommended holding period 5 year(s)

It is recommended that you stay invested in the Fund for at least 5 year(s). This period has been selected for illustrative purposes only and reflects this long-term nature of the Fund's investment objective. There is no minimum or maximum holding period and you can redeem your shares without penalty on any Luxembourg Business Day. Your return may be negatively impacted if you redeem your shares prior to the recommended holding period.
