What is this product?

Type

The Fund is a sub-fund of the Company, open-ended umbrella investment company with variable capital incorporated with limited liability in Ireland and authorised as a UCITS.

Term

The Fund does not have a maturity date. The Directors of the Company may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The objective is to achieve a long term capital appreciation. The Fund seeks to achieve this mainly by investing 'long' (purchasing) and 'short' (selling) in equities (ordinary shares in companies), of companies predominantly involved in real estate and related activities. Investments will be predominantly in companies that are domiciled in or derive a substantial proportion of their revenue from Europe, although investment outside of Europe including emerging markets is permitted. Although the Fund will invest mainly in equities, it may also invest in other investments such as convertible bonds (which pay a fixed rate of interest with an option to convert into equities at a pre-determined price on a specified date) and fixed income securities (securities that pay either a fixed or variable level of income on a periodic basis and will generally repay a specified amount at a pre-determined date). The Fund will use derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying equities) to 'short' and maintain, increase or reduce exposure to particular investments or a relevant market index for investment and for hedging purposes. Hedging is an investment technique that may be used to seek to protect the value of the Fund from risks associated with its investments and currency exposures. The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the ESTR index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

Income from investments in the Fund will be added to the value of your shares.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least an informed level of knowledge and experience of investing in funds. It is designed for investors looking capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives in company shares involved in real estate, the prices of which tend to fluctuate more than other asset classes, as investors directly participate in underlying companies and their profits and losses. The fund also uses derivatives for short selling (designed to make a profit from falling asset prices).

Additional Information

Depository: State Street Fund Services (Ireland) Limited

Fund currency is EUR. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Dealing Day, unless the Directors have decided, with the consent of the Depository, to suspend redemption of Shares. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another Fund or into shares of another share class of the Company, subject to meeting eligibility requirements. Please refer to the Prospectus for further information. The assets and liabilities of the Fund are segregated from other sub-funds of the Company. As a result, as a matter of Irish law, any liability attributable to a particular sub-fund may only be discharged out of the assets of that sub-fund and the assets of other sub-funds may not be used to satisfy any such liability. Further information about the Fund, the Share-Class and the Company can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English and German.

This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire Company. Please refer to the "Other relevant information" section below for more information.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 09/2023 to 09/2024

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 07/2018 to 07/2023

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 12/2016 to 12/2021

Recommended holding period: 5 years

What happens if Waystone Management Company is unable to pay out?

The Management Company of the Fund has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	850 EUR	2,623 EUR
Annual Cost Impact*	8.50%	4.61%

(*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.54% before costs and 0.93% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.
