## What is this product?

### Type

The product is a unit of the sub-fund Obligationen EUR (the sub-fund), which is part of SGKB (Lux) Fund (the "Umbrella Fund"), a specialised investment fund (SIF-fonds d'investissement spécialisé) in the form of an investment fund (FCP) (fonds commun de placement), which is established in accordance with the Luxembourg Law of 13 February 2007 on specialised investment funds, as amended (the "SIF Law").

### Term

The Fund has no maturity date. The Fund could be closed under the conditions set down in the current prospectus of the Fund.

### Objectives

#### Investment Objective

The aim of the sub-fund ("Fund") is to achieve steady capital growth over the long term by means of a conservative risk strategy. For this purpose, the Fund invests in first-class debt securities which are denominated in euros (EUR). These are investments which are extremely likely to be repaid in full on maturity and to pay interest on time and in full.

#### Investment Policy

The Fund invests at least 2/3 of its assets in floating and fixed-rate debt securities which are denominated in euros (EUR) and are issued or guaranteed by governments, international organisations and companies. The Fund is also free to invest in debt securities that can be converted into or exchanged for shares.

The Fund may use complex financial instruments to hedge the Fund assets and to profit from promising investments.

The Fund is actively managed. It follows the benchmark JPM GBI EMU ex GR / IE / IT / PT / ES 1-10Y, which it seeks to outperform over the long term.

The Fund has freedom of choice concerning investments and their weighting. It is able to invest in stocks included in the benchmark index, although is independent of the benchmark index.

#### Share Class Policy:

Any income arising from this Share Class will be accumulated. Other share classes of the Fund may distribute income.

The Fund has several share classes. These may differ with regard to fees, minimum investment, use of revenues and investor qualification.

#### Processing of subscription and redemption orders

Investors may buy or sell the Fund on any bank working day in Luxembourg.

### Intended retail Investor

This Fund is aimed at retail and professional clients and eligible counterparties, who are seeking capital accumulation across categories and have a short-term investment horizon. This Fund is aimed at investors with basic knowledge or experience of financial products. The investor is prepared to bear financial losses and does not require any capital guarantees.

### Depository

The custodian is State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

### Further Information

Please refer to the "Other relevant information" section below.

Unless otherwise defined in this document, all words and expressions defined in the Fund's current prospectus shall have the same meaning herein.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk.** If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		EUR 10 000	
Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	EUR 8 230	EUR 8 270
	Average return each year	-17,70%	-6,14%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	EUR 8 560	EUR 8 400
	Average return each year	-14,40%	-5,65%
<b>Moderate</b>	<b>What you might get back after costs</b>	EUR 9 820	EUR 9 960
	Average return each year	-1,80%	-0,13%
<b>Favourable</b>	<b>What you might get back after costs</b>	EUR 10 350	EUR 10 720
	Average return each year	3,50%	2,34%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between September 2019 and September 2022.

Moderate scenario: This type of scenario occurred for an investment between July 2015 and July 2018.

Favourable scenario: This type of scenario occurred for an investment between August 2013 and August 2016.

## What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian. If the SICAV is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	EUR 299	EUR 506
<b>Annual cost impact (*)</b>	3,0%	1,7% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1,57 % before costs and -0,13 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00% of the amount you pay in when entering this investment. This is the maximum and in some cases you might pay less.	Up to EUR 200
Exit costs	There is no exit fee for this product, but the person selling you the product may charge such fee.	EUR 0

<b>Ongoing costs taken each year</b>		
Management fees and other administrative or operating costs	0,96% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 96
Transaction costs	0,03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 3
<b>Incidental costs taken under specific conditions</b>		
Performance fees (and carried interest)	There is no performance fee for this product.	EUR 0

(\*) For products with performance fees, the actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 years

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 years. You may buy or sell shares in the product, without penalty, on any normal business day as further documented in the fund's documents. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this might increase the risk of lower investment returns or a loss.

## How can I complain?
