| Minimum                            | There is no minimum guaranteed return. You could lose some or all of your investment |                                  |           |
| Stress                             | What you might get back after costs  | 7 780 CHF                        | 7 670 CHF |
|                                    | Average return each year   | -22.20%                          | -6.42%    |
| Unfavourable                       | What you might get back after costs  | 8 180 CHF                        | 8 570 CHF |
|                                    | Average return each year   | -18.20%                          | -3.78%    |
| Moderate                           | What you might get back after costs  | 9 450 CHF                        | 9 460 CHF |
|                                    | Average return each year   | -5.50%                           | -1.38%    |
| Favourable                         | What you might get back after costs  | 10 030 CHF                       | 9 890 CHF |
|                                    | Average return each year   | 0.30%                            | -0.28%    |

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between 10 2019 and 10 2023.

Moderate Scenario: This type of scenario occurred for an investment between 06 2020 and 06 2024.

Favourable Scenario: This type of scenario occurred for an investment between 01 2016 and 01 2020.

## What happens if AXA Investment Managers Schweiz AG is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Schweiz AG. In case of default of AXA Investment Managers Schweiz AG, the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10 000 is invested

|                        | <b>If you exit after 1 year</b> | <b>If you exit after 4 years</b> |
|------------------------|---------------------------------|----------------------------------|
| Total costs            | 724 CHF                         | 1 138 CHF                        |
| Annual cost impact (*) | 7.3%                            | 2.9% each year                   |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.51 % before costs and -1.38 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs

| <b>One-off costs upon entry or exit</b>                     |   | <b>If you exit after 1 year</b> |
|---|---|---------------------------------|
| Entry costs   | 3.00 % of the amount that you pay when you enter the investment. This includes distribution costs of 3.00 % of the amount invested. This is the maximum amount you will pay. The person who sold you the product will inform you of the actual costs. | Up to 300 CHF                   |
| Exit costs  | 3.00% of your investment before it is paid out to you. This is the maximum that can be charged.   | 291 CHF                         |
| <b>Ongoing costs taken each year</b>                        |   |                                 |
| Management fees and other administrative or operating costs | 1.34% of the value of your investment per year. This percentage is based on actual costs over the last year.  | 130 CHF                         |
| Transaction costs   | 0.03 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.                        | 2 CHF                           |
| <b>Incidental costs taken under specific conditions</b>     |   |                                 |
| Performance fees (and carried interest)                     | There is no performance fee for this product.   | 0 CHF                           |

## How long should I hold it and can I take money out early?

### Recommended holding period: 4 years

This product does not have a compulsory minimum holding period; the 4 years have been calculated so that they correspond to the timeframe the product may need to achieve its investment objectives.

You can sell your shares before the end of the recommended holding period without any penalty. The performance or risk of your investment may be adversely affected.

Exit costs may be applied when you cash-in under conditions described in the section "What are the costs?"

Please refer to the "What is this product" section for the redemption procedure.

---
