This document was prepared on 3 September 2024.

You are about to purchase a Product that is not simple and may be difficult to understand.

What is the product?

Type: This Product is a common fund qualifying as an 'other fund for traditional investments' in accordance with the Swiss Federal Act on Collective Investment Schemes.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Management Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: This Equity Sub-fund is actively managed aiming to outperform the return of the ZKB Swiss Small Cap Index (TR) benchmark. The portfolio and the performance of the Sub-fund can deviate from the benchmark. The Sub-fund invests primarily in equities and equity-related securities from small and medium-sized issuers domiciled in Switzerland. The investor can buy or sell units of the Sub-fund on a daily (Switzerland bank business days) basis. This Unit Class makes regular distribution. The Sub-fund shall bear the costs of standard brokerage and bank charges incurred by the Sub-fund through securities transactions in relation to the portfolio.

Intended Retail Investor: This Product is intended for professional and institutional investors, as well as sophisticated retail investors with sufficient knowledge and experience in collective investment schemes and similar products, an ability to bear an average investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 7 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 4 out of 7, which is a medium risk class. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance.**

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 12 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		7 years	
Example Investment:		CHF 10,000	
Scenarios		If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Stress scenario	What you might get back after costs Average return each year	CHF 3,301 -67.0%	CHF 2,142 -19.8%
This type of scenario occurred for an investment CS (CH) Small Cap Switzerland Equity Fund A between 09.2021-08.2024.			
Unfavourable scenario	What you might get back after costs Average return each year	CHF 6,371 -36.3%	CHF 7,548 -3.9%
This type of scenario occurred for an investment CS (CH) Small Cap Switzerland Equity Fund A between 03.2013-03.2020.			
Moderate scenario	What you might get back after costs Average return each year	CHF 10,286 2.9%	CHF 16,663 7.6%
This type of scenario occurred for an investment CS (CH) Small Cap Switzerland Equity Fund A between 12.2012-12.2019.			
Favourable scenario	What you might get back after costs Average return each year	CHF 13,750 37.5%	CHF 22,409 12.2%

What happens if UBS Fund Management (Switzerland) AG is unable to pay out?

The investor of this Product will not face financial loss due to the default of UBS Fund Management (Switzerland) AG, as the assets of the Sub-fund are segregated and will not be hit by any potential insolvency of the manufacturer.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 7 years (Recommended holding period)
Total costs	CHF 867	CHF 1,966
Annual cost impact (*)	8.7%	2.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.2% before costs and 7.6% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% of the value of your investment when entering.	CHF 500
Exit costs	2.0% of the value of your investment before it is paid out to you.	CHF 204
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.6% of the value of your investment per year.	CHF 159
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 4
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a daily (on business days) basis. Redemption fees will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: UBS Asset Management Switzerland AG, Bahnhofstrasse 45, P.O. Box, 8001 Zürich. Investors shall note that a complaint can be also addressed by e-mail to clientservices.amfunds@credit-suisse.com or visit website: www.credit-suisse.com.
