Automatic termination of the PRIIPS: no

Objectives: The sub-fund's assets are invested in accordance with the principle of diversification in securities and other investments. The sub-fund is a money market fund within the meaning of Regulation (EU) 2017/1131 on money market funds. The sub-fund's investment objective is to generate an adequate return in the respective reference currency while giving due consideration to the preservation of capital as well as the liquidity of the sub-fund's assets. The sub-fund invests at least two-thirds of its assets in debt securities and rights (bonds, fixed-income securities, debentures, notes and others) denominated in the reference currency and money market instruments issued by private and public borrowers worldwide as well as futures and time deposits held at banks in Liechtenstein, another EEA member state, Switzerland or United Kingdom (including Guernsey and Jersey) as well as units of other domestic or foreign UCITS that invest their assets in accordance with the investment policy of the respective sub-fund. The sub-fund may invest a maximum of 9.9 % of its assets in other money market funds. This sub-fund promotes environmental or social characteristics and qualifies as a Fixed Income sub-fund applying Exclusions, ESG Integration and Active Ownership while ensuring that the portfolio companies follow good governance practices. For this sub-fund, the identification of the material ESG Factors is based on sector and geographical exposure. The "FTSE 3-Month Switzerland Franc Eurodeposit LCL" index is the reference benchmark to this sub-fund. It is not an ESG index and not used for the purpose of attaining the material ESG Factors.

Intended retail investor: In the member state of origin, the product is intended for professional and private investors with a very short investment horizon, basic experience and who are able to bear a limited financial loss. The product may be used for capital preservation.

What are the risks and what could I get in return?

Risk Indicator:

Lower risk

Higher risk

The risk indicator assumes you keep the product until 1 year.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance-Scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of unfavorable scenario occurred for an investment between 11.01.2018 - 11.01.2019 (if you exit after 1 year).

This type of moderate scenario occurred for an investment between 24.03.2017 - 26.03.2018 (if you exit after 1 year).

This type of favorable scenario occurred for an investment between 12.04.2023 - 12.04.2024 (if you exit after 1 year).

Recommended holding period: 1 year		If you exit after 1 year
Example Investment: 500'000 CHF		
Worst case scenario	You could lose some or all of your investment	
Stress scenario	What you might get back after costs	493'620 CHF
	Average return each year	-1.3 % p.a.
Unfavourable scenario	What you might get back after costs	493'620 CHF
	Average return each year	-1.3 % p.a.
Moderate scenario	What you might get back after costs	495'160 CHF
	Average return each year	-1.0 % p.a.
Favourable scenario	What you might get back after costs	506'720 CHF
	Average return each year	1.3 % p.a.

The calculations of previous performance scenarios can be found under www.vpfundsolutions.com.

What happens if VP Fund Solutions (Liechtenstein) AG is unable to pay out?

Should the manufacturer, VP Fund Solutions (Liechtenstein) AG, or the custodian default on their obligations, the product is not included in the insolvent estate, and may be transferred or liquidated with the consent of the competent supervisory authority.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 500'000 CHF Investment.

	If you exit after 1 year
Total costs	11'740 CHF
Annual cost impact (*)	2.3 %

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering into your investment. The maximum costs are indicated, you could pay less. The distribution costs are included.	7'500 CHF
Exit costs	The impact of the costs of exiting your investment when it matures.	0 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The impact of the costs we annually deduct to manage your investment.	1'000 CHF
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3'422 CHF
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee for this product.	0 CHF

How long should I hold it and can I take money out early?

Recommended holding period: 1 year

Based on the risk/return profile, we recommend a holding period of at least 1 year(s) for this product. However, you can return the product to the manufacturer at the next NAV subject to the notice period specified in the fund documents. Early redemption may have a significant impact on the risk/return profile. In any case, there may be exit costs pursuant to the fund documents.

How can I complain?

To file a complaint about the product or about the conduct of the PRIIP manufacturer or the person advising on, or selling the product, please contact: VP Fund Solutions (Liechtenstein) AG, "Complaints Officer", 9490 Vaduz, Liechtenstein, www.vpfundsolutions.li, beschwerden@vpbank.com

Other relevant information

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 years.

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past

Performance is shown after deduction of ongoing charges. Any entry and exit charges are excluded from the calculation.

The share class shown has been launched on 30. June 2008.

The historical performance was calculated in CHF.
