Date of Production of the KID: 22/07/2024

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?**Type**

The Product is a unit of the Sub-fund Wellington US Research Equity Fund (the "Fund") which is part of the Wellington Management Funds (Luxembourg) (the "Umbrella Fund"), an open-ended investment fund organised initially under Part I of the Luxembourg 1988 Law as an unincorporated mutual investment fund (fonds commun de placement) and now authorised under Part I of the 2010 Law. The Umbrella Fund qualifies as UCITS under Article 1. paragraph 2) points a) and b) of the Directive.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long-term total returns.

The Fund will be actively managed, in excess of the S&P 500 Net Index (the "Index") and achieve the objective by investing primarily in companies incorporated or exercising a predominant part of their economic activities in the US. The Fund may also invest up to 10% in non-US companies. The Index is a market capitalisation weighted Index of 500 stocks and is designed to measure the performance of the broader US economy.

The investment approach uses company selection based on fundamental research by global industry analysts in the Research Department of the Investment Manager, under the oversight of both the director of global industry research and the director of research portfolios who manages overall risk and Fund allocations to analysts. The selection of companies is at the discretion of the individual analysts.

The Fund's securities will generally be components of the Index but are expected to have different weightings; however the Fund may also invest in companies not included in the Index at their discretion. The allocation to each individual global industry analyst will typically align to the Index weighting for the industry they cover, such that the industry weightings of the Fund remain similar to those of the Index. The expected outcome of this should be that the stock selection decisions, rather than industry overweight or underweight decisions, will be responsible for achieving long-term total returns in excess of the Index and/or producing performance that is different from the Index.

The Fund, over time, will be diversified by issuer relative to the US equity market and will not be oriented towards any particular investment style (e.g., growth,

value, small companies); its characteristics will reflect the nature of the underlying stock selections.

The Fund will invest in shares and other securities with equity characteristics such as common stocks, depositary receipts, and real estate securities as well as other instruments. The Fund may invest either directly or via derivatives. Turnover is expected to be moderate to high.

While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.

The Fund seeks to achieve long term net zero carbon intensity by 2050, by promoting the establishment of science-based targets amongst investee companies. The Fund targets net zero emissions by 2050 in alignment with the Paris Agreement by investing at least 25% of the Fund's NAV (excluding cash and cash equivalents) in companies that have established, or have committed to establish, a science-based target, with this percentage increasing to at least 50% by 2030 and 100% by 2040.

The Investment Manager excludes companies which derive any revenue generated from thermal coal mining activities, or more than 20% of their revenue from thermal coal energy generation identified using a combination of third party and/or internal Wellington Management analysis.

A minimum of 85% of the Fund's net assets will be aligned to the environmental characteristics of the Fund.

This Unit class will, via derivatives, seek to provide similar performance to the Fund in its base currency by limiting the impact of the movement of exchange rates between the currency of the Unit class and the base currency of the Fund.

Income policy

Any income allocated to the Unit class from the Fund is reinvested.

Dealing Frequency

Units can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.

Intended retail Investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation and who are able to bear capital loss.

Depositary

State Street Bank International GmbH Luxembourg Branch.

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 5 out of 7 which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level. Poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about any other risks materially relevant to the fund not included in the summary risk indicator such as liquidity, sustainability and operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	970 EUR	1,070 EUR
	Average return each year	-90.30%	-36.04%
Unfavourable	What you might get back after costs	7,450 EUR	9,180 EUR
	Average return each year	-25.50%	-1.70%
Moderate	What you might get back after costs	10,880 EUR	14,600 EUR
	Average return each year	8.80%	7.86%
Favourable	What you might get back after costs	15,840 EUR	20,020 EUR
	Average return each year	58.40%	14.89%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment between 2015 and 2020.

Favourable scenario: This type of scenario occurred for an investment between 2016 and 2021.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the 5 year holding period we have assumed the product performs as shown in the moderate scenario
- 10,000.00 EUR

	If you exit after 1 year	If you exit after 5 years
Total costs	108 EUR	746 EUR
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.0 % before costs and 7.9 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.71% of the value of your investment per year. This is an estimate based on actual costs over the last year.	71 EUR
Transaction costs	0.37% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	37 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem units of this Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per unit of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the units.

How can I complain?

If you choose to invest in the Fund and subsequently have a complaint about it or the Management company or any distributor of the Fund, you should in the first instance contact:

- the Transfer Agent on +353 1 242 5452, via email at WellingtonGlobalTA@statestreet.com
- the Management Company by post at 33, Avenue de la Liberté L-1931 Luxembourg, Grand Duchy of Luxembourg.
