Date of Production of the KID: 14/03/2024

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?**Type**

The Product is a unit of the Sub-fund Wellington Climate Strategy Fund (the "Fund") which is part of the Wellington Management Funds (Luxembourg) (the "Umbrella Fund"), an open-ended investment fund organised initially under Part I of the Luxembourg 1988 Law as an unincorporated mutual investment fund (fonds commun de placement) and now authorised under Part I of the 2010 Law. The Umbrella Fund qualifies as UCITS under Article 1. paragraph 2) points a) and b) of the Directive.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long-term total returns in excess of the MSCI All Country World Index (the "Index ") while contributing to the environmental objective of climate risk mitigation and adaptation.

The Fund has an environmental objective of climate risk mitigation (to address the causes and minimise the impacts of climate change) and adaptation (reduce the negative effects of climate change or help communities adapt to the impact of climate change).

The Fund will invest at least 90% of its net assets in companies whose products, services or capital provide for decarbonisation, energy/resource efficiency and resiliency to climate change. The investment opportunity set of the Fund will be segmented into five major categories: Low Carbon Electricity, Low Carbon Transport, Water and Resources Management, Energy Efficiency and Climate Resilient Infrastructure.

The Fund will be actively managed and achieve its objectives by investing primarily in equity securities of worldwide publicly traded companies.

The investment approach is based on the Investment Manager's assessment of both the climate stewardship and economic capital of the target companies. In other words, the fund quantifies the financial and environmental impacts of companies' projects and thus assesses the sustainability of investment returns.

The Investment Manager carries out bottom-up company specific analysis to compare against current market security prices and broader market sentiment.

The Fund will base its investment selection on in-depth fundamental analysis, but will assess on an ongoing basis that allocations to various sectors and themes are in line with top-down macroeconomic views.

The Fund will invest in shares and other securities with equity characteristics, such as preferred stock, warrants, rights, and depository receipts. The Fund may invest either directly or via derivatives.

While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.

The Index serves as a reference benchmark for performance comparison purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the Investment Manager will not manage the extent to which Fund securities differ from the Index.

The Fund seeks to fulfil its environmental objective by investing at least 90% of its net assets in shares of companies whose products or services meet the Investment Manager's climate stewardship criteria around mitigation and adaptation.

The Fund will seek to support certain environmental characteristics by aiming to achieve net zero emissions by 2050 in alignment with the Paris Agreement, by investing a minimum of 25% of its NAV in companies which have established, or have committed to establish science-based targets, with this percentage increasing to a minimum of 50% by 2030 and 100% by 2040.

The Fund will also exclude the top 100 natural gas, thermal coal and oil companies respectively based on reserves.

Income policy

Any income allocated to the Unit class from the Fund is reinvested.

Dealing Frequency

Units can be bought or sold daily in accordance with the Prospectus.

Intended retail Investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation and who are able to bear capital loss. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Depositary

State Street Bank International GmbH Luxembourg Branch.

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 4 out of 7 which is a medium risk class. This rates the potential losses from future performance at a medium level. Poor market conditions could affect the value of your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about any other risks materially relevant to the fund not included in the summary risk indicator such as liquidity, sustainability and operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 USD	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,290 USD	1,440 USD
	Average return each year	-87.10%	-32.13%
Unfavourable	What you might get back after costs	8,320 USD	9,280 USD
	Average return each year	-16.80%	-1.48%
Moderate	What you might get back after costs	10,660 USD	17,000 USD
	Average return each year	6.60%	11.20%
Favourable	What you might get back after costs	18,860 USD	23,620 USD
	Average return each year	88.60%	18.76%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2018 and 2023.

Favourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2016 and 2021.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the 5 year holding period we have assumed the product performs as shown in the moderate scenario
- 10,000.00 USD

	If you exit after 1 year	If you exit after 5 years
Total costs	132 USD	1,036 USD
Annual cost impact (*)	1.3%	1.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.5 % before costs and 11.2 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.80% of the value of your investment per year. This is an estimate based on actual costs over the last year.	80 USD
Transaction costs	0.52% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	52 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem units of this Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per unit of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the units.

How can I complain?

If you choose to invest in the Fund and subsequently have a complaint about it or the Management company or any distributor of the Fund, you should in the first instance contact:

- the Transfer Agent on +353 1 242 5452, via email at WellingtonGlobalTA@statestreet.com
- the Management Company by post at 33, Avenue de la Liberté L-1931 Luxembourg, Grand Duchy of Luxembourg.
