WHAT IS THIS PRODUCT?

Type:

Contractual investment fund under the Swiss Federal Act on Collective Investment Schemes (CISA) for qualified investors. The fund's performance depends on the performance of the underlying investments, as further described in the «Objectives» section.

Term:

The term of this product is indefinite and it has no maturity date. The manufacturer may reposition the product at any time, merge it with another product or terminate it unilaterally and without notice.

Objectives:

The investment objective of the fund is to generate long-term capital growth.

The fund directly or indirectly invests at least two-thirds of its assets in shares and other equity securities of companies in the healthcare industry or in companies whose main activity is to hold participations in or to finance such companies. At least 80% of the fund's assets meet the requirements of the asset manager's sustainability policy.

Fund units are issued and redeemed basically on every bank business day in Switzerland.

Earnings and profits of the unit class are not distributed, but reinvested.

Cantonal Bank of Zurich, Bahnhofstrasse 9, 8001 Zurich, was appointed as the custodian bank.

Further information about the fund (e.g. fund contract, prospectus, annual report and semi-annual report) as well as other practical information, including the latest unit prices, can be accessed in German free of charge at www.fundinfo.com.

Intended retail investor:

This product is suitable for qualified investors who ...

... have at least a basic knowledge of the financial instruments contained in the fund;

... have a long-term investment horizon;

... would, in a worst-case scenario, be able to withstand the loss of the entire invested capital.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

Lower risk < 1 2 3 4 5 6 7 > Higher risk

The risk indicator assumes you keep the product for 10 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose

money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class.

Reasons for this risk classification: Equity market and company-specific price volatility; Foreign currency risks.

Be aware of currency risk if your reference currency is not the currency of the product. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the risk indicator shown above.

Other significant risks for the fund: None.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we cannot pay what is due to you, you could lose all of the capital invested.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The presented pessimistic, medium and optimistic scenarios illustrate the worst, average and best performance of the product with partial use of a suitable benchmark in the last 15 years. Markets could develop completely differently in the future.

Recommended holding period: 10 years Example Investment: 10 000 CHF				
Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		1 year	5 years	10 years Recommended holding period
Stress scenario	What you might get back after costs	2 430 CHF	2 394 CHF	1 144 CHF
	Average return each year	-75.70 %	-24.87 %	-19.49 %
Unfavourable scenario	What you might get back after costs	7 313 CHF	8 804 CHF	8 893 CHF
	Average return each year	-26.87 %	-2.52 %	-1.17 %
Moderate scenario	What you might get back after costs	11 147 CHF	18 503 CHF	30 489 CHF
	Average return each year	11.47 %	13.10 %	11.79 %
Favourable scenario	What you might get back after costs	14 443 CHF	22 550 CHF	46 038 CHF
	Average return each year	44.43 %	17.66 %	16.50 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment using a representative data series in part between 2007 - 2022.

WHAT HAPPENS IF SWISSCANTO FUND MANAGEMENT COMPANY LTD., ZURICH IS UNABLE TO PAY OUT?

The assets of the Fund and the assets of the fund management company are held separately. Therefore, a default by the fund management company will not affect the value of your investment. If the custodian bank goes bankrupt, the Fund's assets deposited with the custodian bank will not be included in the bankruptcy estate but will be segregated for the benefit of the Fund. In such a case, the claims by the Fund against the custodian bank in the form of privileged deposits are given priority by the custodian bank, but are otherwise treated as ordinary claims in the bankruptcy proceedings.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- CHF 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	123 CHF	1 163 CHF	3 955 CHF
Annual cost impact*	1.23 %	1.39 %	1.37 %

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 13.16% before costs and 11.79% after costs.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: **10 years**

The recommended holding period for this product is 10 years. It is determined on the basis of the fund's risk and reward profile. Your ideal holding period may be different from this recommended holding period. We recommend that you discuss this with your advisor. If the holding period is shorter than the recommended holding period, this may have a negative impact on your investment's risk and reward profile. In principle, fund units may be redeemed on every bank business day in Switzerland. Any costs are shown under «Composition of costs» above.
